

REPRESENTATION OF INTERESTS

2023

Organization name	Category	Description	Main action of the Organization	Main role EDP played at the Organization	Main action developed by EDP throughout 2023	EDP Contribution (€)	Relevant work on Climate positioning
(Mission of the association/institution)							
ACP - American Clean Power Association	Sectorial/Industrial Trade associations of tax-exempt groups	Trade association that represents clean energy power project developers, equipment suppliers, services providers, parts manufacturers, utilities, researchers, and others involved in the clean power sector	Advocating for the development of clean energy in North America. Membership services include market intelligence, legislative analysis, bill support, and company representation at political events	EDPR NA has a seat on the board of directors, and actively participates in programming and market intelligence gathering	Legislative analysis and industry advocacy	€ 666 971,20	Yes
AELEC - Asociación de Empresas de Energía Eléctrica	Sectorial/Industrial Trade associations of tax-exempt groups	Professional organization of sectoral nature, for the representation, promotion, management and defense of the general and common interests of its members. Its activity is focused on the disclosure, dissemination and promotion of the technical and regulated aspects of electrical activities and works to position itself as a key player that helps to develop an adequate energy transition in Spain	Positioning for an adequate electrification, energy transition and regulatory framework in Spain. Spanish representative in Eurelectric	Interest representation	Plan action involvement/Participation in various discussion groups to defend EDP position in Spain	€ 400 000,00	Yes
WEF - World Economic Forum	Sectorial/Industrial Trade associations of tax-exempt groups	World Organization for public/private partnerships, Business, Academy, Society and States working together looking for global solutions. Political, Business, cultural and civic leaders building positioning and engaging in crucial debates solving World Economy issues	Mastering the fourth industrial revolution; solving the problems of the global commons; addressing global security issues	Participative work through Energy, Climate and Just Transition themes. Deep engagement on the Davos Annual Meeting, through Energy, Nature&Climate and CyberSecurity Platforms, through the broader Electricity Industry Community	Speaking Opportunities at Davos Annual Meeting '23; Sustainable Development Impact Meeting at the NY Climate Week and COP28. Active engagement at AM2023 and preparation for AM2024. Work through 10 communities, 38 events/meetings, through direct engagement of 21 executives. 2 videos published at WEF.org	€ 360 464,00	Yes
ABRADEE - Associação Brasileira de Distribuidores de Energia Elétrica	Sectorial/Industrial Trade associations of tax-exempt groups	Main Brazilian association in the electricity distribution segment: gathers 39 concessions on electrical energy Distribution (grids), both public and private, throughout the whole country	Supporting its partners on technical, commercial, economical-financial, law and institutional areas. Also responsible for advocacy with public offices; regulatory bodies, Parliament press and various energy sector players, around budgeting and policy asks, defending the industry interests	EDP has a seat on the Board of Directors of the Association; Lead Working Groups (for example, Commercial WG); Membership in the Sandbox Governance R&D Management Committee; Participation in the various WGs of the Association; proposition of relevant topics for the electricity distribution segment; performance in the ABRADEE Award	Active participation at Work Groups and Committees: Commercial WG, Tariffary WG, Buying WK, Modernizing WG, Prorrogation, P&D, Active management Wks, Law Committee, Regulatory Committee, amongst others	€ 239 767,50	No
ELECPOR - Associação portuguesa das empresas do sector eléctrico	Sectorial/Industrial Trade associations of tax-exempt groups	Professional organization of sectoral nature, for the representation, promotion, management and defense of the general and common interests of its members. Acts as an interlocutor for these companies in the elaboration and discussion of policies, guidelines and regulation of the electricity sector with Portuguese and international entities	Eurelectric's Portuguese representative	Participation in various Eurelectric working groups to defend the electricity sector's positions vis-à-vis European bodies	Electrification; Electricity prices; Sustainable Finance Taxonomy	€ 233 100,00	Yes
Wind Europe	Sectorial/Industrial Trade associations of tax-exempt groups	Association for wind energy in Europe. Based in Brussels, it has over 600 members, who are active in more than 50 countries, including companies from across the wind energy value chain. It represents the entire value chain: utilities/developers, manufacturers, banks, insurance companies, and research institutes	The annual event: the organization of the sector's reference event in Europe, which last year took place in Bilbao	Active member. For the first time, this year time we have the highest category of the association's membership: Market Leaders. Thanks to this category, we will increase our presence by having a place on the board of the association. In addition, we are working to have EDRP members in all working groups. Currently, 15 people take part of the different working groups	Event that took place in Bilbao. Several people from the company were speakers at the different round tables of the event	€ 176 166,00	Yes
SEIA - Solar Energy Industry Association	Sectorial/Industrial Trade associations of tax-exempt groups	Professional organization of sectoral nature, for the representation, promotion, management and defense of the general and common interests of its members. Dues for Solar Energy Trade Association	Advocating representation of solar energy in the USA at the federal and state level with studies, fact sheets, state regulatory filings, legislative analysis, public relations and media, industry advocacy, ISO and PUC engagement	EDPR NA has a seat on the board of directors, and actively participates in programming and market intelligence gathering	Legislative analysis and industry advocacy	€ 173 595,20	No
Instituto ACENDE Brasil	Other	Instituto Acende Brasil is a Think Tank (study center) aimed at developing actions and projects to increase the degree of Transparency and Sustainability of the Brazilian Electricity Sector	The Institute's team of executives and researchers provides the following professional services: Courses, Studies and Analysis, Research and Development Projects, Sustainable Energy Seal, Sector Clipping, Political-Regulatory Report	Interest representation	Several studies and analyzes carried out by the institute directly impacted EDP's operating strategies. Participation in meetings focusing on discussing macro topics of Generation, Transmission and Distribution, in addition to tariff topics. In 2023, EDP Brasil sponsored the Brazil Energy Frontiers 2023 event, held by the Institute	€ 153 206,50	Yes
WBSCD - World Business Council for Sustainable Development	Sectorial/Industrial Trade associations of tax-exempt groups	World's leading organization supporting corporate approaches to sustainable development. It is the premier global, CEO-led community of over 200 of the world's leading sustainable businesses working collectively to accelerate the system transformations needed for a net zero, nature positive, and more equitable future	WBSCD reinforces the business case for sustainability through tools, services, models and experiences, as well as the collective positioning of its members	EDP's CEO is part of the Executive Committee and was elected for a two-year term (2023-2024). Participation in work groups and contributions to reports and other tools with EDP cases	Preparation of positioning for COP28; Collaboration in different working groups (Beyond The Value Change, PACT, Adapataion & Resilience, Energy Pathway, etc.)	€ 150 165,70	Yes
NEO Network (Schneider Electric) (Now ZEIGO)	Sectorial/Industrial Trade associations of tax-exempt groups	Community of organizations advancing reliable and cost-effective renewable energy and cleantech solutions worldwide	NEO Network's primary mission and activities is to ensure the smooth procurement of clean energy through the facilitation of information exchanges, market reports and "buyer's meetings" between energy suppliers and C&I energy buyers	Gaining industry visibility and potential customer acquisition	Through the NEO Network, EDRP NA was able to acquire market intelligence on the clean energy buyer/procurement market in the US, as well as target and reach out to new corporate off-takers for our projects	€ 124 257,70	No

OTHER REPRESENTATIONS OF INTEREST THAT DEVELOP RELEVANT WORK ON CLIMATE POSITIONING							
Organization name	Category	Description	Main action of the Organization	Main role EDP played at the Organization	Main action developed by EDP throughout 2022	EDP Contribution (€)	Relevant work on Climate positioning
[Mission of the association/institution]							
APREN - Associação Portuguesa de Energias Renováveis	Sectorial/Industrial Trade associations or tax-exempt groups	Promotion of Renewable Energies in the electricity sector	Positioning for an adequate energy transition in Portugal (Advocacy for the representation of wind energy producers' interests, strategy, advocacy, regulation, etc.) Preparation of Studies and Publications Annual event 'Portugal Renewable Energy Summit' Communication APREN Award	EDP provides input whenever there are public consultations on legislation via APREN	Participation in Environmental working groups, another on Production Units for Self-Consumption (UPACs), another on interconnections, auctions. Has been working actively on the topic of IMI	€ 86 700,00	Yes
Global Renewables Alliance	Sectorial/Industrial Trade associations or tax-exempt groups	Established to unite global associations representing the renewable energy sector to promote the clean technologies needed for a Net Zero world by 2050	Aims to accelerate the energy transition, defending the global objective of Triple RES capacity in the world	EDP sponsored the Triple Renewables campaign designed to culminate in COP28	EDP sponsorship includes support of the Renewables Hub pavilion at COP28. EDP was also a signatory of the 3XRenewables campaign	€ 50 000,00	Yes
ABEEOUCA - Associação Brasileira de Energia Eólica	Sectorial/Industrial Trade associations or tax-exempt groups	Brazilian Association that congregates and represents the wind energy industry in the country, including companies from the entire production chain	Defends the implementation of the wind source in the electric matrix and has been acting permanently and strategically, with different institutions, to promote the competitiveness and sustainability of the national wind sector	Active Member and Partner Participation in the Executive Board	Participation in working groups Active voice in initiatives to lead with Borborema's movement Sponsor of its annual event	€ 45 013,20	Yes
AEE - Asociación Empresarial Eólica	Sectorial/Industrial Trade associations or tax-exempt groups	Represents more than 90% of the sector in Spain which includes promoters, wind turbines and component manufacturers, national and regional associations, organizations connected with the sector, consultants, lawyers and financial entities, among others. AEE's main goal is to promote the development of wind energy through its interests, research, communication and education	AEE's main goal is to promote the development of wind energy through its interests, research, communication and education. AEE coordinates research into the areas surrounding wind energy and provides services to its members, meeting their different needs. It contributes to the formulation of the normative framework with a view to the sector developing under the best possible conditions. It disseminates the reality of wind energy and endeavours to raise awareness in society. It sets in motion high-level events at which it brings together prominent national and international personalities. It publishes reports and studies which are a reference	Active member and Partner in some initiatives and campaigns such as 'Vientos de Futuro'	Participation in working groups, attendance at annual events, collaboration with institutional campaign and positioning of the wind sector 'Vientos de Futuro'	€ 38 436,00	Yes
MAREC - MidAtlantic Renewable Energy Coalition Action	Sectorial/Industrial Trade associations or tax-exempt groups	Coalition of utility-scale solar, wind, and battery storage developers, wind turbine and solar panel manufacturers, and public interest organizations dedicated to promoting the growth and development of renewable energy in the Mid-Atlantic region	MAREC maintains contract lobbyists in Maryland, Virginia, West Virginia, Kentucky, Ohio, New Jersey, Pennsylvania and focuses its legislative efforts on renewable portfolio standards, long term contracts, transmission and siting policy	EDP is a board member and actively involved in all state policy and board meetings. EDP provides relevant input and feedback on all legislative efforts to the renewable energy industry and votes on all Board matters	EDP focused its efforts within MAREC on shaping legislation and regulatory proposals impacting the renewable energy industry to ensure EDP interests were preserved	€ 31 978,10	Yes
GWEC - Global Wind Energy Council	Sectorial/Industrial Trade associations or tax-exempt groups	GWEC's mission is to ensure that wind power is established as one of the world's leading energy sources, providing substantial environmental and economic benefits	Support and advocacy for the promotion, development, and implementation of wind energy	Sponsoring activity	Positioning for COP27	€ 30 000,00	Yes
We Mean Business Coalition	Sectorial/Industrial Trade associations or tax-exempt groups	Non-profit association of different corporate associations, collaborates with an extensive network of organizations to accelerate the transition to a fair and climate-resilient carbon-neutral economy	Conducts advocacy on sustainability issues	EDP collaborates at the Policy Advisory Group	Sponsorship payment for the Business pavilion at COP27 Contributions to policy papers prepared before world meetings (G7, G20, COP28), subscription and participation in the "Fossil to Clean" campaign	€ 22 925,26	Yes

OTHER REPRESENTATIONS OF INTEREST THAT DEVELOP RELEVANT WORK ON CLIMATE POSITIONING

Organization name	Category	Description	Main action of the Organization	Main role EDP played at the Organization	Main action developed by EDP throughout 2023	EDP Contribution (€)	Relevant work on Climate positioning
(Mission of the association/institution)							
RWEA - Romanian Wind Energy Association	Sectorial/Industrial Trade associations or tax-exempt groups	RWEA is actively involved in the Romanian national and international policy and the dialogue on regulations, communication, research and analysis regarding the extension of renewable energy sources, being the voice of energy transition and the wind energy industry in Romania	Representation & lobby with authorities (i.e. Parliament, Government, ANRE, OPCOM, etc); updates on the regulatory changes; participation to working groups on regulatory changes; participation to national/ international events organized by other associations for RES industry	Active Member and Partner	Participation in working groups Sponsor of RWEA Initiatives such as Wind Open Day and its annual event.	€ 20 000,00	Yes
BCSD Portugal - Conselho Empresarial para Desenvolvimento Sustentável	Sectorial/Industrial Trade associations or tax-exempt groups	BCSD Portugal is an NGO pulling together over 140 outstanding portuguese companies, actively committed to sustainability transition	The work of BCSD comprises mainly: - Working groups (WG), which favour collaboration between companies to create innovative solutions, mechanisms and tools that allow responding to business challenges in the transition to sustainability; - Training – open to professionals and employees of companies and organizations, wherever the sector, stage of the journey to sustainability, level of knowledge and maturity in terms of sustainability; - Communication, events and publications – to set the national agenda with regard to sustainability issues and raise awareness among the business community and society	EDP has been part of the board since 2021. EDP participates in several Working Groups, namely in the Carbon Neutrality GT	Participation in management and secretariat meetings, participation in working groups, Charter of Principles and Journey 2030, events	€ 10 500,00	Yes
EURELECTRIC	Sectorial/Industrial Trade associations or tax-exempt groups	Represents the common interests of the electricity industry at pan-European level, plus its affiliates and associates on several other continents	Contributes to the development and competitiveness of the Electricity Industry and to promote electrification of the economy. As a centre of strategic expertise, EURELECTRIC identifies the common interests of its Members and, through research into the marketplace, technologies, legislation, etc., assists them in formulating common solutions to be implemented and in coordinating and carrying out the necessary action. It also acts in liaison with other international associations and organisations, recognising their specific missions and responsibilities	EDP is part of AELEC and ELECPOR which are, respectively, the Spanish and Portuguese representatives in Eurelectric	Participation in various discussion groups to defend the electricity sector's positions vis-à-vis European bodies as well as sponsoring events and dedicated studies		Yes
American Council on Renewable Energy - ACORE	Sectorial/Industrial Trade associations or tax-exempt groups	The Council advocates and develops lobbying activities (although not a Lobby firm) towards a faster and more solid implementation of Renewable Energies in the USA	On behalf of member companies, ACORE submits comments and directly lobby federal legislators and agency officials when relevant legislation is proposed, or regulations approved. This year, advocating against the initial iteration of proposed Basel III regulations has been one of ACORE's top priorities.	EDPR is a board member. ACORE lobbies legislators and agencies/regulators at the federal level on behalf of EDPR, and multiple renewable energy companies.		€ 5 000,00	ACORE is one of the main trade organizations in the US advancing the goals of renewable energy companies, and their investors, and advocating for strong climate action legislation and regulations.
SC Partners (Federal)	Lobbying	Federal policy actions, closely monitoring, regulatory developments with the support of federal trade associations and federal lobbyist.	SC Partners has assisted in building relationships and communicating policy positions on EDPR's behalf, including: - Filing the renewable energy tax credits contemplated by the Inflation Reduction Act (IRA); - Approving a comprehensive sitting and permitting reform.	As a client, EDPR contracts with SC Partners to lobby federal legislators and agencies/regulators on our behalf.		€ 121 154,00	SC Partners has represented EDPR and other clients on renewable policy matters, including legislative representation, which has positively strengthened our relationships with federal congressional offices.
Cross Oak Group	Lobbying	Texas is a major part of EDPR's North American portfolio as well as a battleground state for renewable energy policy. In addition to the operational wind farms in Texas, EDPR has solar sites under construction and storage projects in development across the state. These need to be displayed as major investment and purpose at State level.	Since taking EDPR on as a client in November 2023, COG has already established new relationships and inroads with Senators and agency officials we had not connected with in past years. They have solidly prepared us for the onslaught of opposition anticipated during the 2025 legislative session in Austin.	As a client, EDPR contracts with COG to lobby legislators and agencies/regulators in Texas.		€ 89 741,00	EDPR is COG's first renewable energy client, but we mutually vetted each other for conflicts of interest prior to signing the contract last year. Lobbying firms like Cross Oak Group represent a variety of clients on a variety of issues. In general, they are obligated to avoid conflicts of interest, so EDPR can expect that our lobbying contractors will not be representing other clients whose interests are adverse to ours on clean energy and climate protection.
California Advisors	Lobbying	In addition to existing assets and several projects in late stage of construction, EDPR has 14 GW of potential onshore development in California, while EDPR, through its JV Ocean Winds, is also one of five entities holding a lease to develop wind power off the coast of California.				€ 84 132,00	
Hill & Knowlton (Alberta)	Lobbying	EDPR has one operational wind asset and two solar sites in development, needs acknowledgment of its reputation and building capacity as well as operation deployment.	H&K has regularly reach out to government officials on EDPR behalf when permitting issues have arisen; they regularly keep EDPR apprised of relevant happenings in Alberta.	As a client, EDPR contracts with Hill & Knowlton to provide the company with regular updates on relevant happenings within the energy sector in Alberta and engage with government, regulators, and the grid operator in on our behalf.		€ 53 204,00	Firms like H&K represent a variety of clients on a variety of issues. In general, they are obligated to avoid conflicts of interest, so EDPR can expect that our lobbying contractors will not be representing other clients whose interests are adverse to ours on clean energy and climate protection.
Hill & Knowlton (British Columbia)	Lobbying	H&K BC will bid EDPR's wind project into the 2024 BC Hydro RFP	H&K has connected EDPR with several members of Government and Energy Ministry officials connected to the BC Hydro RFP; they regularly keep EDPR apprised of relevant happenings in BC that are important to business.			€ 53 204,00	Firms like H&K represent a variety of clients on a variety of issues. In general, they are obligated to avoid conflicts of interest, so EDPR can expect that our lobbying contractors will not be representing other clients whose interests are adverse to ours on clean energy and climate protection.
