

INDEPENDENT VERIFICATION REPORT ON THE PARTIAL NON-FINANCIAL INFORMATION STATEMENT OF EDP ESPAÑA, S.A.U. FOR THE FINANCIAL YEAR ENDED ON 31 DECEMBER 2023

To the Sole Shareholder of EDP ESPAÑA, S.A.U.:

In accordance with article 49 of the Spanish Commercial Code, we have verified, within a limited assurance scope, the attached Partial Non-Financial Information Statement (hereinafter, partial NFIS) of EDP ESPAÑA, S.A.U. (hereinafter, the Company) corresponding to the financial year ended on 31 December 2023, the information of which is included in a separate report from the consolidated management report of the EDP GROUP, the parent company of which is EDP ENERGÍAS DE PORTUGAL, S.A.

As stated in its management report, the Company has invoked the exemption provided by article 49.6 of the Spanish Commercial Code on the grounds that part of its non-financial information is included in the Annual Report of the EDP GROUP, based in Portugal, the parent company of which is EDP ENERGÍAS DE PORTUGAL, S.A., and to which it belongs. In order to meet the current commercial obligations regarding non-financial information reporting, the Company has prepared the NFIS containing partial information, which is recorded as an appendix titled '2023 Partial Non-Financial Information' to its management report, and which includes, according to the analysis conducted by the Company, the supplementary information required by article 49.6 of the Spanish Commercial Code compared to the information required by articles 19. Bis 1 and 29. Bis 1 of Directive 2014/95/EU. Our work has been exclusively limited to the verification, based on the mentioned analysis of contents, of the information identified in the 'GRI Chart' included in the attached NFIS; we have not conducted any verification procedure whatsoever on the information included in the Annual Report of the EDP Group.

Responsibility of the Board of Directors

The Board of Directors of the Company is responsible for the preparation of the partial NFIS included as an appendix titled '2023 Partial Non-Financial Information' to its management report, as well as the content thereof. The partial NFIS has been prepared pursuant to the provisions contained in the current commercial regulation and in accordance with the criteria of the selected Global Reporting Initiative Standards (GRI Standards) for Sustainability Reporting, and according to what is mentioned for each matter in the 'GRI Chart' included therein.

This responsibility also includes designing, implementing and maintaining the internal control deemed necessary to make sure that the partial NFIS is free from any material misstatement, due to fraud or error.

The Board of Directors of the Company is also responsible for defining, implementing, adjusting and maintaining the management systems from which the information required for the preparation of the partial NFIS is obtained.

Our independence and quality control

We have met the independence requirements and other ethical requirements contained in the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants (IESBA), which is based on the fundamental principles of integrity, objectivity, professional competence, diligence, confidentiality and professionalism.

Our firm applies the International Standard on Quality Control 1 (ISQC 1) and consequently maintains a global quality control system that includes policies and documented procedures related to the compliance with ethical requirements, professional standards and legal and regulatory provisions that may apply.

The team has been made up of professionals specialised in non-financial information reviews and, specifically, in economic and social performance information.

Our responsibility

Our responsibility consists in expressing our conclusions in an independent limited assurance verification report based on the work performed.

We have carried out our reviewing work in accordance with the requirements set out in the current International Standard on Assurance Engagements 3000, 'Assurance Engagements Other than Audits or Reviews of Historical Financial Information' (ISAE 3000 Revised), issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC), and with the Guidelines for non-financial information statement verification engagements issued by the Spanish Institute of Chartered Accountants.

In a limited assurance engagement, the procedures that are carried out vary in nature and timing, and they have a shorter length than those conducted in a reasonable assurance engagement; thus, the assurance provided is also lower.

Our work has consisted in interviewing the Management and the various responsible units and areas of the Company that have participated in the preparation of the partial NFIS, reviewing the processes to gather and validate the information presented in the partial NFIS, and implementing certain analytical procedures and sampling tests that are described below:

- Meetings with the staff of the Company to learn about the business model, the policies and the management approaches applied, and the main risks related to those matters, and to obtain the necessary information for the external review.
- Analysis of the scope, relevance and integrity of the contents included in the partial NFIS for financial year 2023 according to the materiality analysis conducted by the Company and considering the contents required by the current commercial regulations.
- Analysis of the processes to gather and validate the data presented in the partial NFIS for financial year 2023.

- Review of the information relating risks, policies and management approaches applied with regard to the material aspects presented in the partial NFIS for financial year 2023.
- Verification, by means of tests, based on the selection of samples, of the information related to the contents included in the partial NFIS for financial year 2023 and its appropriate compilation from the data supplied by the information sources.
- Obtaining of a representation letter from the Directors and the Management of the Company.

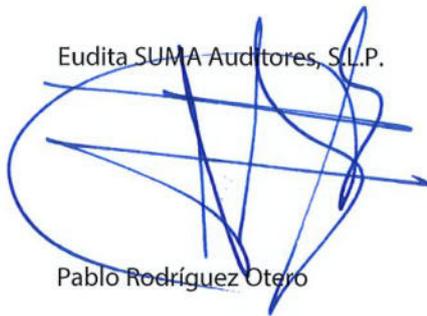

Conclusion

Based on the procedures carried out in our verification and on the evidence we have obtained, no aspect whatsoever has been revealed that leads us to believe that the contents of the partial information NFIS of EDP ESPAÑA, S.A.U. corresponding to the financial year ended on 31 December 2023 have not been prepared, in all material aspects, in accordance with the selected criteria of the GRI standards, as well as with the other criteria described pursuant to what is mentioned for each matter in the GRI Chart of the mentioned Statement. The contents of the mentioned partial information Statement have been established by EDP ESPAÑA, S.A.U. in accordance with the analysis conducted by comparing the non-financial information required by article 49.6 of the Spanish Commercial Code and the information provided in articles 19. Bis 1 and 29 Bis 1 of Directive 2014/95/EU. EDP ESPAÑA, S.A.U. has decided that the latter information will be included in the Annual Report of the EDP Group to which it belongs, and, consequently, the attached partial information NFIS does not include the total contents set out by the current commercial regulations.

Purpose of our report

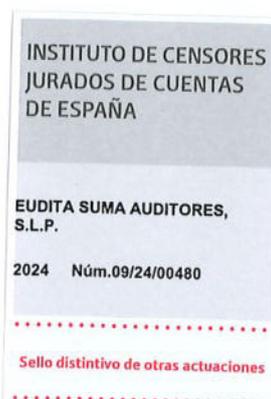

This report has been prepared to meet the requirement established by the commercial regulations in force in Spain; hence, it may not be appropriate for other purposes and jurisdictions.

5. Goals.....	12
6. GRI Chart.....	14

1. Introduction

EDP España, S.A.U. has invoked the exemption contained in article 49.6 of the Commercial Code on the grounds of including part of its non-financial information in the Annual Report of the EDP GROUP, based in Portugal, the controlling company of which is EDP ENERGIAS DE PORTUGAL, S.A., and to which it belongs.

In order to meet the current commercial obligations on non-financial reporting matters, the Company has prepared this Non-Financial Information Statement (NFIS) containing partial information that includes, according to the analysis conducted by the Company, the additional information required by article 49.6 of the Commercial Code compared to the information required by articles 19. Bis 1 and 29. Bis 1 of Directive 2014/95/EU, which is included in the Management Report of the company.

In financial year 2023, the company has executed a segregation of the assets of the Aboño 1 and 2 thermal power plants, as well as the Soto 5 combined-cycle power plant, in favour of its subsidiaries Aboño Generaciones Eléctricas, S.L. and CTCC Grupo4, S.L. The staff assigned to those power plants has been transferred to the new companies, for accounting purposes, effective as of 1 November 2023 and 1 January 2022, respectively.

2. Stakeholders

The management of stakeholders has long been a strategic priority for EDP, which has anticipated the growing openness of companies to society in order to meet increasingly demanding ethical and transparency rules.

The relations with the different stakeholders have also acquired an increasing relevance in the corporate world, as one of the ESG (Environment, Social, Governance) pillars, since they have been consolidated as one of the priority metrics for the investor community and society in general.

EDP's consistency and commitment to this strategy is clearly evidenced by its international recognition in the Dow Jones Sustainability Index as the best-in-class worldwide, as regards the climate strategy, innovation management, market opportunities, and corporate ethics criteria.

EDP upholds its commitment to retain the excellence achieved in this sphere, fostering dialogue with its stakeholders, adapting and improving its procedures, and incorporating different opinions in its action plans.

Thus, the management of stakeholders is conducted in accordance with the Stakeholder Relations Policy of the EDP Group.

This line of action is aimed at building and strengthening relationships of trust, sharing knowledge and relevant information, anticipating challenges, and identifying new opportunities for cooperation in the face of the challenges the EDP Group is confronting in all the geographical areas in which it operates.

The four major guiding commitments of the Policy are: to understand, to communicate, to trust, and to collaborate. The bases of the Relations Policy are:

TO UNDERSTAND

Include, identify, prioritise

- We dynamically and systematically identify the stakeholders that influence and are influenced by EDP.
- We analyse and try to understand the stakeholders' expectations and interests in the decisions that directly affect them.

EDP ESPAÑA, SAU

TO COMMUNICATE

Inform, listen, reply

- We commit to promote a two-way dialogue with stakeholders, through information and consultation actions.
- We listen, inform, and reply to our stakeholders in a consistent, clear, rigorous, and transparent way, with the aim of forging close, solid, and lasting relationships.

TO TRUST

Transparency, integrity, respect, ethics

- We believe that fostering an environment of trust with our stakeholders is crucial to establish steady long-term relationships.
- Our relationship with our stakeholders is based on values such as transparency, integrity, and mutual respect.

TO COLLABORATE

Integrate, share, cooperate, inform

- It is our ambition to collaborate with the stakeholders in building strategic joint partnerships and to share knowledge, skills, and tools, thus promoting the creation of shared value in a distinguishing way.

The EDP Group's stakeholders are organised into four well-differentiated segments:

- 1. Value Chain:** Employees, Unions, Suppliers, Scientific Community, Customers, Consumer Associations, and Business Associations.
- 2. Market:** Competitors, Financial Entities, Shareholders, and Investors.
- 3. Democracy:** Government, Public Bodies, Regulatory Bodies, Parliament, Political Parties, and International Institutions.
- 4. Social and Territorial Context:** NGOs, Local Communities, Town Councils, Media, and Opinion Formers.

3. Materiality

EDP's materiality analysis process is developed using a cross-cutting methodology common to the entire Group.

EDP conducts a 'Materiality Study' in order to identify the most relevant aspects for all the stakeholders, including both positive and negative aspects, either current or in the medium-long term. The main stages of this materiality process are described below:

STAGE 1: UPDATING OF THE MATERIAL TOPICS

EDP ESPAÑA, SAU

Based on cross-cutting sources and material topics from the previous year.

STAGE 2 - PRIORITISATION OF THE RELEVANT TOPICS FOR SOCIETY

Identification of relevant topics for each group of stakeholders

- Direct sources (direct listening)
- Indirect sources (public information)
- Cross-cutting sources (indices and studies)

STAGE 3 - PRIORITISATION OF THE RELEVANT TOPICS FOR THE BUSINESS

Identification of relevant topics for the business

Through the analysis of:

- Strategic business goals
- Business plans of the strategic areas
- Risk and Opportunity Management Policies and Reports
- Interviews with the Management

STAGE 4 - PREPARATION OF THE MATERIALITY MATRIX

Intersection of relevant topics for Society v Business

Preparation of the Materiality Matrix

STAGE 5 - ANALYSIS OF CRITICAL AND SENSITIVE TOPICS

Main Materiality results

In 2023, after having conducted sectoral comparative analyses, in addition to considering the analysis of international studies, we deem that no significant changes are expected in the weighing of the topics for our Stakeholders with respect to the previous year, and no new topics are expected to be included in the matrix. By way of summary, we show below the results obtained in the 2021 review:

MATERIALITY REPORT

The most relevant categories on an external level in 2021 have been:

1. Energy efficiency (100%)
2. Human and labour rights (93%)
3. Sustainable mobility (93%)
4. Vulnerable customers (93%)
5. Climate changes (93%)
6. Crisis management (91%)
7. Environmental management (89%)
8. Communication and transparency (89%)
9. Engagement with the local community (87%)
10. Digital transformation (86%)

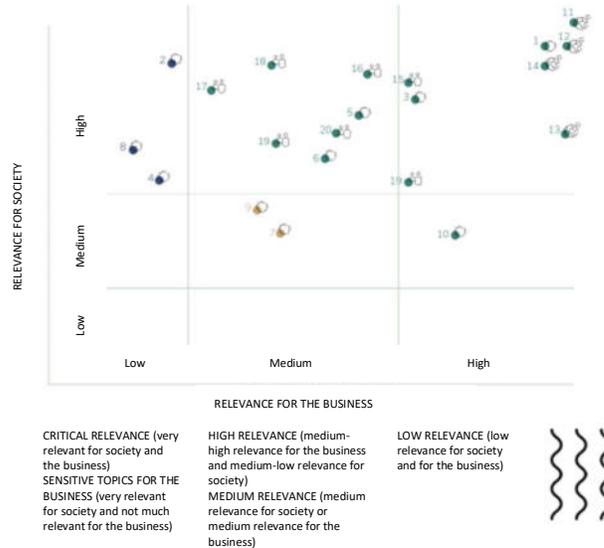

The most relevant categories on an internal level in 2021 have been:

1. Energy efficiency (100%)
2. Climate changes (98%)
3. Sustainable mobility (95%)
4. Renewable energy promotion (95%)
5. Environmental management (91%)
6. Supplier management (79%)

RELEVANT CATEGORIES

The following matrix is obtained from the analysis of the internal and external relevance.

The matrix shown below is divided into 9 sections that represent the materiality level in each category.

The matrix is obtained from the analysis of internal and external relevance. It is divided into 9 sections that represent the materiality level in each category. The materiality level is determined by the degree of relevance for each line.

- CRITICAL RELEVANCE (very relevant for society and the business)
- SENSITIVE TOPICS FOR THE BUSINESS (very relevant for society and not much relevant for the business)
- HIGH RELEVANCE (medium-high relevance for the business and medium-low relevance for society)
- MEDIUM RELEVANCE (medium relevance for society or medium relevance for the business)
- LOW RELEVANCE (low relevance for society and for the business)

4. Indicators and policies

The most important policies of EDP España as regards sustainability indicators are:

- The Environmental Policy
- The Sustainable Development Principles
- The Stakeholder Relations Policy
- The Risk Management Policy
- The Occupational Health and Safety Policy
- The Human and Labour Rights Policy
- The Sustainable Procurement Policy
- The Integrity Policy
- The Diversity, Equity, Inclusion, and Belonging Policy
- The Code of Ethics

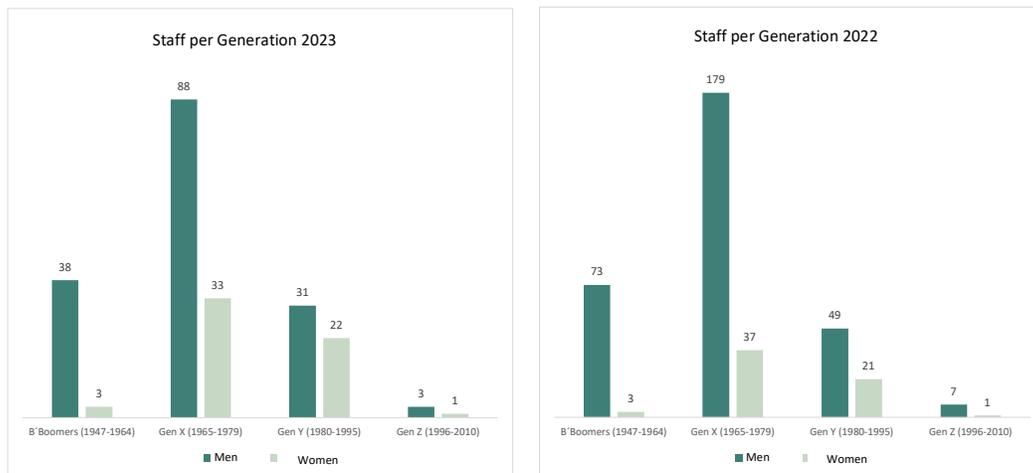

EDP ESPAÑA, SAU

It should be noted that, in 2023, new policies have been published: The EDP Group Interest Representation Policy and the EDP Local Stakeholder Engagement Policy. They may be consulted on the website: www.edp.com

The indicators completing the non-financial information reported by the EDP Group are described below.

Distribution of the staff per generation

EDP España, S.A.U has, as at 31/12/2023, a staff of 219 employees, compared to the 370 employees as at 31/12/2022. Aware of the importance of gender diversity, it promotes the effective protection of female talent recruitment, through its Human Resources policies and practices. Female presence in younger generations represents 40.4% in 2023, corresponding to the addition of Generation Y and Z, thus contributing to create a balanced work environment committed to equality.

Annual average permanent, temporary, and part-time contracts per age and professional classification

EDP España, S.A.U is committed to stability in its recruitment - 99% of its recruits are under full-time permanent contracts, 1% being under part-time contracts. In 2023, the company approved the decision to implement a new Global Remuneration Policy for the entire EDP Group. Therefore, effective as of 1 January 2023, EDP España, S.A.U. has adopted an employee organisational classification system through Job Grades, grouped by segments and job families. The job assessment methodology remains the same, but the presentation of the remuneration results per band, in the case of workers who are not covered by the collective bargain agreement, has changed, and Job Grades have replaced the former framework groups, whereas it does not affect workers covered by the collective bargain agreement in remuneration terms, because they are still subject to professional groups. As a consequence of the change in the framework methodology, the staff distribution, training, and remuneration charts corresponding to year 2023 cannot be compared to those of 2022.

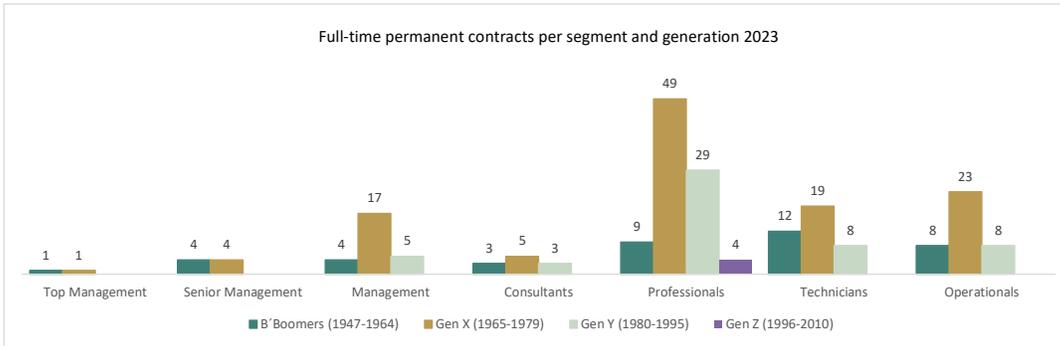

Detailed Job Grades and Segments 2023

Job Grade	Segments	
25	Top Management-Top Consultant	Executives
24	Top Management-Top Consultant	
23	Top Management-Top Consultant	
22	Senior Management-Senior Consultant	Managers

Part-time permanent contracts per framework group and generation 2023

Full-time permanent contracts per framework group and generation 2022

EDP ESPAÑA, SAU

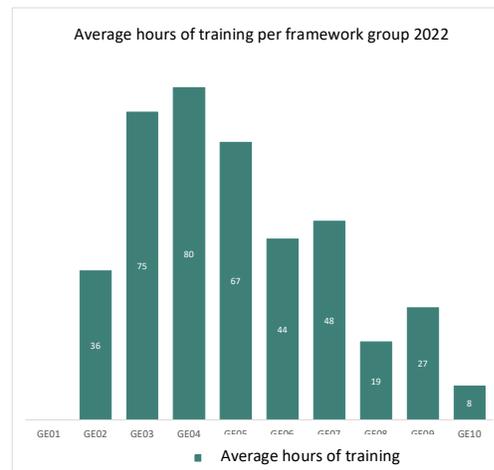

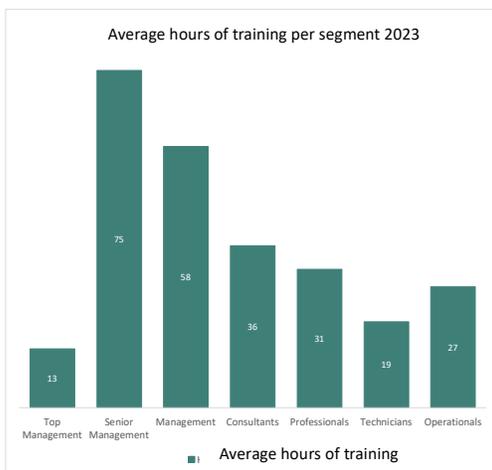

As at 31 December 2023, EDP España, S.A. had no employees under a temporary contract. This stability in recruitment is combined with the flexible hours offered by EDP España, S.A.U in order to achieve a real work-family life balance.

No. of hours of absenteeism

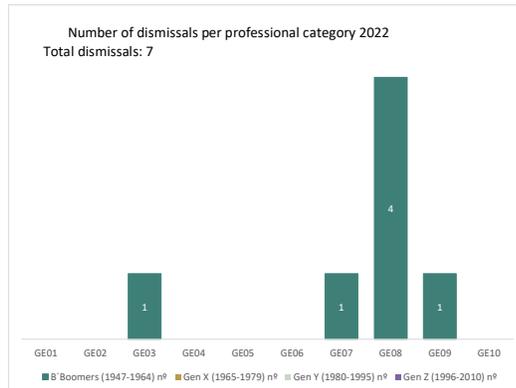

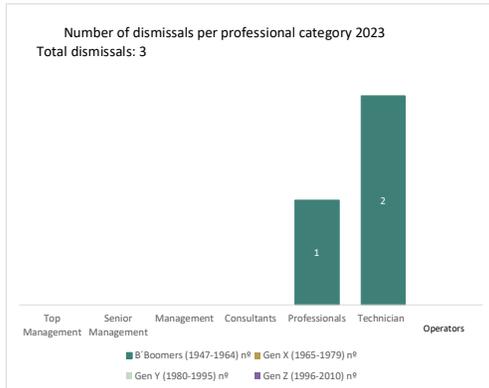

Year	2023	2022
Hours of absenteeism	22,686.31	28,944.69

No. of hours of training per professional classification

In 2023, it is worth noting the adaptation of the training and development process to the new Corporate Development Model, including the creation of a new corporate portfolio (global training offer) and access to a new platform, where all the EDP España employees can find thousands of contents that will revolutionise their learning experience. Furthermore, we must not forget the technical and prevention training set out in the Training Plan, as well as development programmes such as ADN Learning, aimed at managers.

No. of dismissals per professional category

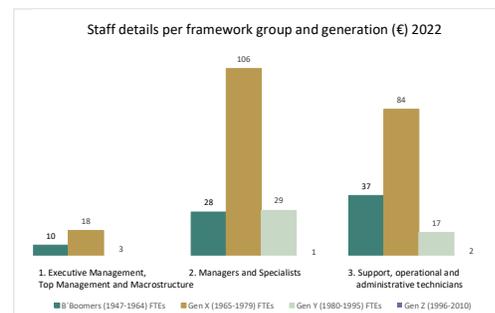

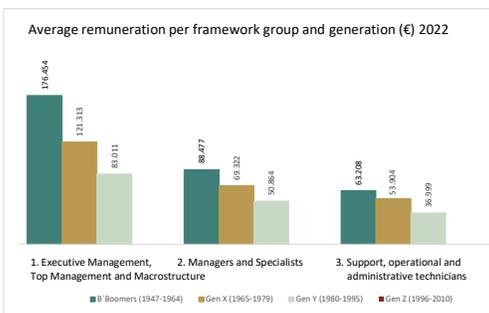

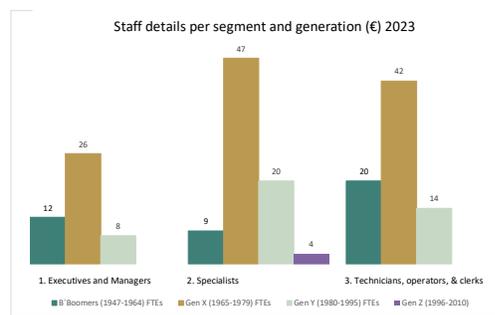

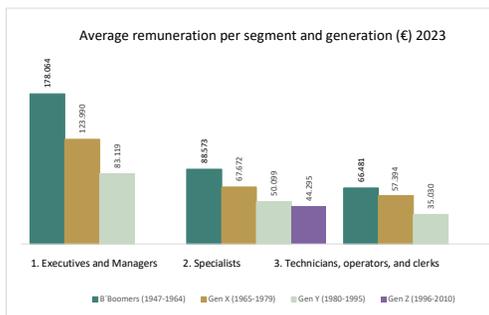

Both in the case of 2023 and 2022, 100% of the dismissals belong to the Baby Boomer Generation (1947-1964).

Average remuneration and its development per age and professional classification

In EDP España, S.A.U, the remuneration of the work is based on the skills, the performance, and the dedication of the people that are part of our organisation

We believe that it is a continuous improvement road and, thus, the compensation and benefit system reflects our values and our culture.

EDP ESPAÑA, SAU

The remuneration data regarding the Z-Generation employees in the Support, Operational and Administrative Technicians Group are not specified herein for the purpose of not disclosing individual data. Likewise, for the purpose of standardising the figures in the calculation of the Average Remuneration, the people who have not been in the company throughout the year and those who were not employed on a full-time basis have been removed thereof.

Pay gap among equal positions

EDP upholds its commitment to true equal treatment and opportunities between women and men in the company, recognising the development and promotion of every employment relationship based on equality and non-discrimination, and implementing measures to guarantee respect for the diversity of all the employees.

Despite the foregoing, there are salary differences resulted from historic remuneration items, associated with age, customs, and practices of the energy sector, or from the bargaining agreement in effect at the time of the recruitment, something that tends to disappear as the people from these groups reach the retirement age. In year 2023, the absolute pay gap was 19.57% and in 2022, 15.71%.

Commitment to society and to local communities

Contributions made to charities and non-profit organisations

On an annual basis, a contribution is made to the Foundation, which is approved by the Board of Directors:

Contribution approved in 2023 for 2024	€2,626,230
Contribution approved in 2022 for 2023	€ 2,644,016

Profits earned per country and taxes paid on profits

The profits before taxes entirely earned in Spain are:

2023	€(13,275,357.24)
2022	€576,829,714

As a consequence of the Company's integration into the tax group of EDP Sucursal en España, as regards the payment of the profit tax, the Company has made, in 2023, payments for an amount of 45,872,662 euros on the profits of 2022. The Company has made, in 2022, payments for an amount of 3,919,566 euros on the profits of 2021.

Aid received from the public administration

No relevant subsidies were received in 2023 or in 2022.

5. Goals

In March 2023, the EDP Group presented its new 2023-2026 strategic plan and its 2040 ambition, which are a revision of the 2022 sustainability goals and its respective 2021-2025 Plan. The 2023-2026 Sustainability Plan also applies to EDP España, S.A.U.

Our ambitious 2023-2026 strategic plan is based on decarbonisation for a climate positive world, and it is focused on three main goals:

- Stop operating with coal by 2025
- Become a 100% renewable company by 2030
- Be Net Zero by 2040

This way, we strengthen our commitment to the energy transition and speed up our sustainable growth in the long term. At the core of this strategy is a global investment to boost renewable energies and strengthen our position in power grids, while simultaneously supporting our employees, customers, communities, shareholders, and partners to achieve a positive climate world.

We are leading the decarbonisation of the sector, working on a daily basis to achieve carbon neutrality

Grupos EDP | Science Based Targets | THE NET ZERO STANDARD | #1 compañía eléctrica integrada (Índice Dow Jones de Sostenibilidad clic-22)

We are going	to decarbonise to attain a climate positive world	Coal-free 2025	100% green 2030	Carbon-neutral 2040
We are	<ul style="list-style-type: none"> preparing our communities to play an active role in the energy transition protecting our planet and contributing to its regeneration involving our partners to achieve an impactful transformation 	<ul style="list-style-type: none"> ~€200M in social investments 100% projects biodiversity monitoring system with net profit 100% suppliers meet ESG regulations 	<ul style="list-style-type: none"> +3,000 new recruits 90% waste recovery 90% procurement volume aligned with ESG goals 	
We have	a solid ESG culture that protects and boosts human life	Goal: Zero fatal accidents	70% employees received ESG training	Remuneration linked to ESG

EDP España 2023-2026 Sustainability Plan

The EDP Group 2023-2026 global strategy and 2040 ambition, as well as the topics identified as relevant for EDP España in the materiality study, have been taken into consideration for the preparation of EDP España Sustainability Plan.

Following the approval and public launch of the EDP Group Strategic Plan, ‘The Call for Changing Tomorrow Now’, and taking into account the new Business Plans of the Generation, Grids, and Customers Platforms, the 2023-2026 Sustainability Plan has been prepared, both on a Group and Platform level, and it was presented to the Board last July 2023.

This plan is a firm and ambitious commitment that includes an unprecedented accelerated growth in renewable energies, based on our history of leaders of the energy transition. For EDP, it is not only about supplying energy to communities, but also training them so they can lead a more eco-friendly and sustainable life. Likewise, we are committed to the protection of our planet,

EDP ESPAÑA, SAU

contributing to its regeneration, and to establishing partnerships with our partners to boost the energy transition, with appealing returns, excellence in ESG (Environmental, Social, and Governance) indicators, and higher value.

After revising the EDP España Sustainability Plan for the 2023-2026 period, 18 initiatives aligned with the EDP ESG Master Plan have been devised:

A quarterly ESG Report, both for EDP España and for EDP Redes España and the Generation Platform, has been established to monitor the Plan.
