

# A2E CSR FUND

## Application Filling Instructions

Carefully read the Instructions and the Regulation, available on the [EDP's web page](#), before completing the application.

For inquiries regarding the website, please contact the provider via <https://edp.smapply.io/helpdesk/>.

For inquiries regarding the application, please contact us via email at [a2e@edp.com](mailto:a2e@edp.com).

6. Submitting the Full Application	Page 45

Please note that the following sections will have fictional data to illustrate a complete application.

## 1. Registration on the Platform

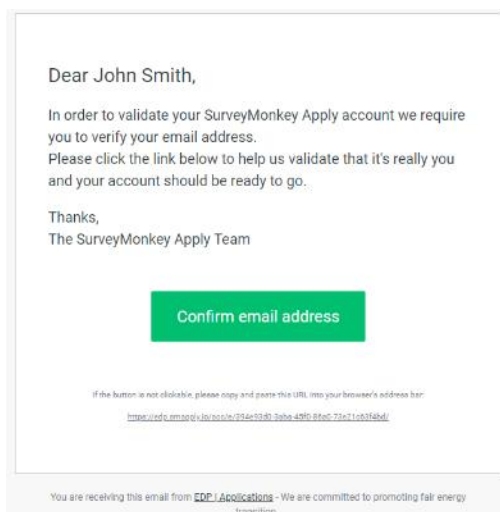

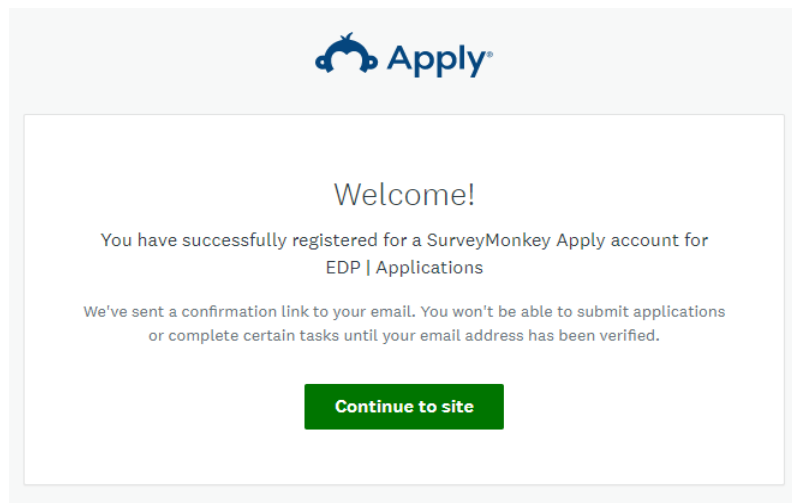

Go to [edp.smapply.io](http://edp.smapply.io) and select the “Register” button. Fill in the necessary fields and click on “Create Account”.

*Note: Record your password in a safe place.*

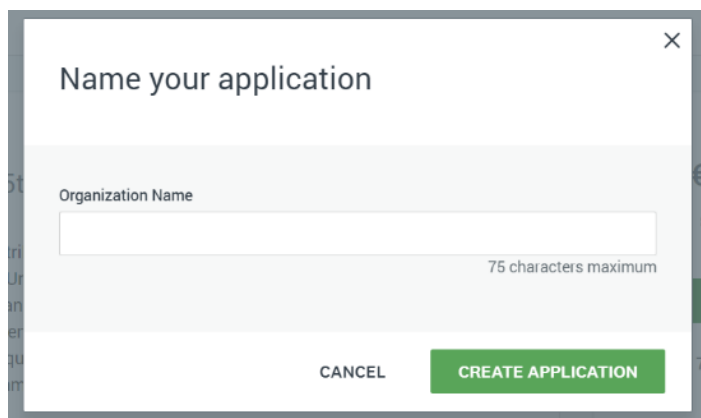

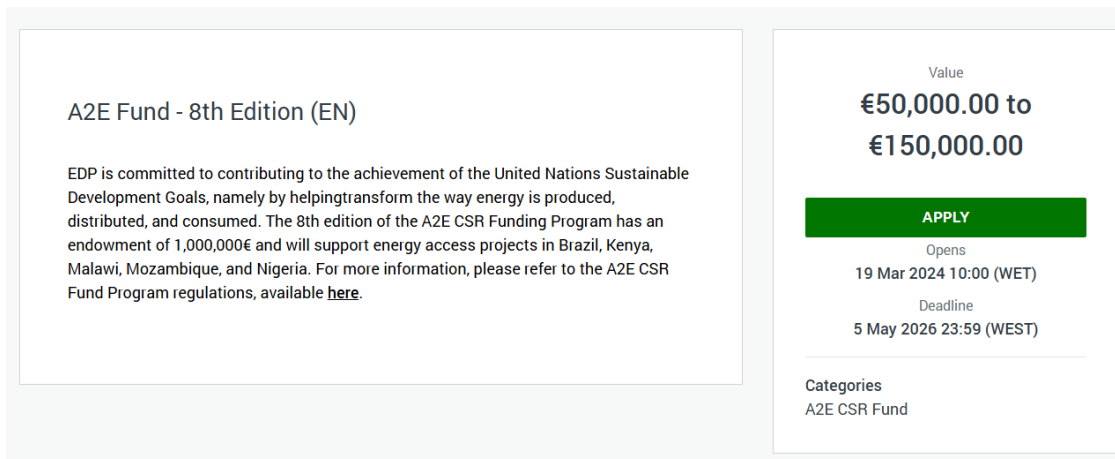

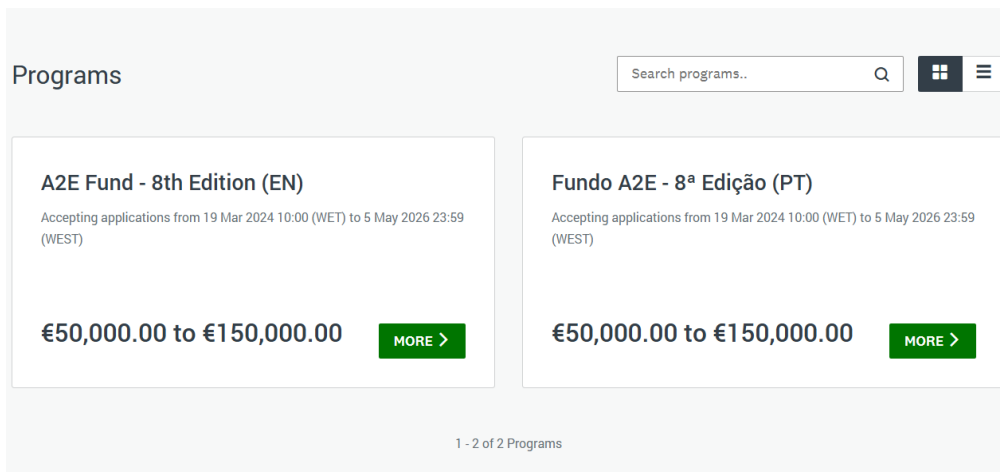

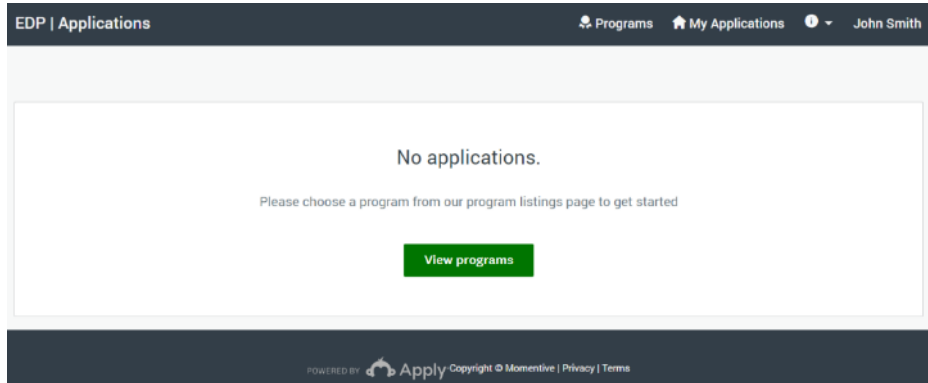

A message will appear, and an email from “EDP Applications” will be sent to verify the email address used during registration. Confirm the email address so that all features work on the platform.

*Note: Check your spam if the message does not appear in your inbox.*

## 2. Program Selection

After the verification of the email, choose “View Programs”. You will have the option to select the Program in English (EN) or Portuguese (PT), click on “More” in “A2E Fund – 8<sup>th</sup> Edition” or “Fundo A2E – 8<sup>a</sup> Edição”. Then select “Apply”. Afterward, a box will pop up to register the organization's name.

### 3. Summary Application

After completing the previous steps, you can access the *Application Portal*. The portal displays the application's sections and their status.

The screenshot shows the 'Fictional Application' portal. On the left, a progress bar indicates '0 of 4 tasks complete'. Below it, the text 'Last edited: 30 Mar 2026 15:07 (WEST)' and 'Deadline: 5 May 2026 23:59 (WEST)' is visible. There are 'REVIEW' and 'SUBMIT' buttons. The user profile for 'Marta Louro (Owner)' is shown with an 'Add collaborator' button. On the right, the application title 'Fictional Application' and ID '0000000001' are displayed. Below the title are tabs for 'APPLICATION' and 'ACTIVITY'. A 'Your tasks' section lists four items: 'Disclaimer', 'Project Promoter Info', 'Project Overview', and 'Applicant Statement', each with a document icon and a right-pointing arrow.

As you move forward, tasks will have a status mark.

The screenshot shows the 'Fictional Application' portal with progress updated to '1 of 4 tasks complete'. The progress bar is partially filled. The 'Your tasks' section now shows 'Disclaimer' with a green checkmark icon and the text 'Completed on: 30 Mar 2026 16:40 (WEST)'. 'Project Promoter Info' has a green circle with a white checkmark icon and the text 'Last edited: 30 Mar 2026 16:51 (WEST)'. 'Project Overview' and 'Applicant Statement' remain with empty document icons.

The different tasks can be completed in any order, and you may save your work, log out, and return it at a different time and keep working on the application.

You may add a collaborator by clicking the button on the left panel. A window will open to add the email account and define the type of access the collaborator may have (view only or also edit). The collaborator will receive an email to join the application. Please note that only the email registered in the application may submit it.

### Disclaimer

The personal data hereby collected are intended to allow contact and intermediation within the scope of the Project.

A. Responsible for processing personal data: EDP S.A. (EDP), with legal office at Avenida 24 de Julho, nº 12, 1249-300 Lisboa; e-mail address: a2e@edp.com.

B. Purpose of the processing and legal basis: The identification and contact personal data are processed for the management of the project for the purpose of approval and subsequent granting of the financial contribution as well as for compliance with any other legal requirements; personal data will be processed by EDP as they are necessary for the participation in the Program which regulation and rules were accepted by the interlocutor indicated by Project Promoter and who intends to apply for the Project (the basis will therefore be the contractual relationship established by the acceptance of the rules and the regulation).

C. Recipients: The processing of personal data may be carried out by a service provider contracted by EDP, which will process the personal data for the purposes established by EDP and in accordance with the instructions issued by EDP, strictly complying with the legal rules on personal data protection, information security and other applicable standards.

D. International data transfers: EDP will only transfer personal data to countries where the European Union (EU) Commission has decided to present an adequate level of personal data protection or where EDP has implemented measures to ensure the security, integrity, and confidentiality of personal data under the legislation on personal data protection using contractual mechanisms approved by the European Commission or other Regulatory Entities, such as EU Model Contract Clauses, or other mechanism in compliance with chapter V of GDPR.

E. Retention period: The personal data will be stored for the period of the duration of the project, without prejudice to the responsibility to keep them beyond the period for the fulfillment of legal obligations or for the purpose of historical archiving of the company, through the application, in the latter case, of appropriate technical and organizational measures.

F. Exercise of Rights: The data subject may, at any time, exercise their rights of access, rectification, opposition, or deletion of data, limitation, and portability of their data and, for this purpose, submit their request, in writing, through the following contacts: E-mail: a2e@edp.com; Address: Avenida 24 de Julho, nr. 12, 1249-300 Lisboa.

In the scope of this Project, if you consider that EDP, in this notice, has violated or may have violated your rights under the applicable data protection legislation, you may file a complaint with the National Data Protection Commission. For any question related to the information, the data subject may also contact EDP's Data Protection Officer (DPO), whose contact information is dpo.pt@edp.com.

## Project Overview 0%

### 1. Project Description

**1.1. Project Type**

Energy & Education ▼

**1.2. Project Title**

Solar for Youth education

**1.3. Project Summary**

In one (1) sentence, briefly describe the project.

The Solar PV system will allow better access to education by youth, through the electrification of the school and enabling access to ICT classes.

**Characters entered: 145**  
Min: 1 Max: 300

**1.4. Implementation Country**

Malawi ▼

**1.5. Project Location**

Specify the project site location, eg. Region / District / Town / Address

Chikwina, Mzuzu

**1.6. Duration (nº of months)**

The term of execution of each project may not exceed 12 months + up to 3 months preparation (between October 2026 and December 2027)

10

SAVE & CONTINUE EDITING

NEXT

Select the main category from the drop-down box.

Summarize in one (1) sentence the main goal of the project.

Select the country where the project will take place from the drop-down box.

Specify the project site location (e.g., Region / District / Town / Address).

Indicate the number of months. The implementation of the project should last a maximum of 1 year, plus up to 3 months of preparation. Consider the period from October 2026 to December 2027.

Click "Next" to move to the next page of the Project Overview.

### 1.7. Explanation of the problem identified

Describe the community(ies) need or problem that is being addressed with the project implementation

Malawi is one of the poorest countries in the world, ranking around 171–172 out of 189 countries in the United Nations Human Development Index (2018). Approximately half of the population lives below the national poverty line. Access to secondary education remains limited, with only about one-third of young people enrolling in secondary school. This situation particularly affects adolescent girls, who face multiple challenges related to adolescence as well as social expectations regarding their role in the community. Limited access to education creates significant barriers to acquiring skills and accessing future employment opportunities.

Trial Secondary School currently lacks electricity, which restricts the conditions needed to provide vocational training such as IT and other activities that could support students' skills development and contribute to community growth. The school serves approximately 600 students and employs 30 staff members.

Characters entered: 959

Min: Max: 1000

### 1.8. Technical Solution

#### A. Energy Source

- Solar
- Hydro
- Wind
- Biomass
- Hybrid,
- Other,

#### B. Type of Solution

- Systems for Public and Private Infrastructure
- Solar Home Systems (SHS)
- Mini-Grid (MG)
- Mesh-Grid (peer-to-peer SHS)
- Cold Storage
- Water Pumping
- Desalination
- E-Mobility
- Batteries renting/Charging Stations
- Cookstoves
- Other,

Describe the need or problem that is being addressed with the project implementation.

Select the main energy source to be used in the project.

Select all technologies to be used in the scope of the project.

## 1.9. Description of the project

Explanation of project goals, objectively stating the Solution(s) for the identified problem(s), including operational and/or business model, if applicable.

The "Solar for Youth Education" project aims to strengthen the capacity of a new generation of leaders in Malawi by providing clean and reliable energy to Trial Secondary School. The project will install a 30 kW solar photovoltaic (PV) system with battery storage to supply the school's infrastructure in an off-grid context. The system will include PV modules, inverters, charge controllers, battery storage, and a basic monitoring system to ensure stable performance.

Reliable electricity will enable lighting, digital learning, and vocational training activities, including the establishment of an IT workshop equipped with 20 computers for students and the wider community. A market study will assess community training needs.

The system will also support mobile phone charging services, generating small fees to contribute to a maintenance fund. School staff will receive training in system operation and maintenance to ensure long-term sustainability. By improving facilities and learning opportunities, the project aims to increase student enrollment and reduce dropout rates.

### 2. Project Development

#### 2.1. Beneficiaries

##### A. Main Group of Beneficiaries

Please select the options regarding the beneficiaries that the project is primarily designed to benefit.

###### A.1. Target group of beneficiaries

- Students (and their families), teachers and/or school staff
- Healthcare professionals and/or patients
- Communities subjected to energy poverty
- Business owners, entrepreneurs and/or unemployed people
- Farmers, fishermen, and other workers in agriculture or fisheries
- Vulnerable populations (immigrants, refugees, people with disabilities, women, internal displaced people, people with addictions, etc.)
- Other, please specify...

###### A.2. Age range of beneficiaries

- Children (0 to 12 years old)
- Young people (12 to 17 years old)
- Adults (18 to 64 years old)
- Elderly (+65 years old)

##### B. Secondary Group of Beneficiaries (if applicable)

Please select any additional groups that may also benefit from the project, beyond the main target group.

###### B.1. Target group(s) of beneficiaries

- Students (and their families), teachers and/or school staff
- Healthcare professionals and/or patients
- Communities subjected to energy poverty
- Business owners, entrepreneurs and/or unemployed people
- Farmers, fishermen, and other workers in agriculture or fisheries
- Vulnerable populations (immigrants, refugees, people with disabilities, women, internal displaced people, people with addictions, etc.)
- Other, please specify...

Select the main target group of beneficiaries of the project. Select 1.

Select the age range of the project beneficiaries. Select all that apply.

If applicable, select the target beneficiary group(s) that will also be affected by the project. Select all that apply.

### B.2 Age range of beneficiaries

- Children (0 to 12 years old)
- Young people (12 to 17 years old)
- Adults (18 to 64 years old)
- Elderly (+65 years old)

### C. Gender

The A2E CSR Fund aims to ensure gender equality (SDG 5). Considering the purpose of processing personal data, this question is optional.

Both ▼

Explain whether gender issues are essential for the construction of the project.

We aim to ensure that both boys and girls have equal access to the project's benefits. Considering gender issues in school energy projects is essential for promoting equity, increasing STEM representation, and improving education. Girls are often underrepresented in STEM fields. With this project, the school can actively work to increase representation and encourage more girls to pursue careers in STEM. Additionally, implementing energy-efficient technology will lead to cost savings, allowing more resources to be allocated to education.

### D. Community engagement plans

- The beneficiary community needs to be identified.
- The beneficiary community has already been identified.
- The beneficiary community has already been identified and received our support through other projects.

### E. Number of Beneficiaries

	Number	Type of population
Direct Beneficiaries	630	students and school sta
Indirect Beneficiaries	1000	Youth and local commu

Explain how you calculated these numbers, and describe how the Beneficiaries will be directly impacted as well as how they have been or are involved in the process.

600 students attend the Trial Secondary School, 30 teachers and staff. Around 1000 youth in the region that are not enrolled in Trial School and wider local community that may access the services at the school.

Characters entered: 210

Min: Max: 1000

If applicable, select the age range of the project secondary beneficiaries. Select all that apply.

Select one of the options from the drop-down menu.

Select the most accurate option regarding the current state of the community involved in the project.

## 2.2. Project Partnerships

List potential partnerships for project implementation and/or financing and describe their roles in the project.

If you do not have partners, write N.A. (not applicable) in the first row and provide the information in the box following the table.

	Name of the Partner	Role
Partner 1	A2E partner	This is the national agency foreducation and is key to allowing ourintervention and also to provide training to the teachers
Partner 2	Trial Secondary School	Engage all stakeholders at the school and Community
Partner 3	A2E Solar Reference	Provide the equipment and theO&M training
Partner 4		
Partner 5		
Partner 6		

If your project does not require partners, please provide a brief explanation on why

Identify specific partnerships for project financing and/or implementation: Name of the Organization and its role/purpose of the partnership)

### 2.3. Key Outputs and Outcomes

Please complete the table below, linking the project's main outputs to the corresponding long-term results expected for the community and stakeholders.

- Outputs are defined as the main immediate results of the activities carried out and should be detailed and quantified.

- Outcomes are defined as the expected medium- or long-term changes resulting from these outputs, particularly in terms of beneficiaries' capacities, behaviours, or living conditions.

Example:

# 1: Key Output: 1 photovoltaic system installed and operational in a school, with 6 classrooms equipped with lighting and energy-efficient equipment, serving 630 students | Key Outcome: Reliable access to electricity throughout the school day, reducing interruptions to teaching activities and improving learning conditions.

#2: Key Output: 10 teachers and staff trained in basic operation and maintenance (O&M) of the system | Key Outcome: Strengthened local capacity to operate and maintain the system autonomously.

	Key Outputs	Key Outcomes
#1	Trial Secondary School powered by solar energy and 630 students and staff with access to energy	Increase access to better education for students
#2	5 staff members trained in O&M	Increase in knowledge on the operation and maintenance of solar systems.
#3	IT workshop with 20 computers built for students, staff and wider community	Increase access to internet for students and community

### 2.4. Budget

A grant in the range of €50,000 – €150,000 can be requested from EDP. As stated, applicants are required to provide, as a minimum, co-financing of 25% (non-profit entities) or 50% (for-profit entities) of the global project value.

As an example, see the [detailed budget form](#) that will be requested in the next phase of the Full Application, if your project is selected for the next phase.

Budget Items	Total Cost (€)	Amount requested from EDP (€)
1. Investment Expenses/Materials (works, generation equipment and other materials/equipment)	€ 63000	€ 41000
2. Development Expenses/Services (HR, Travel, External Services, Communication, Training, Monitoring & Evaluation and other costs)	€ 27000	€ 9000
<b>Total (1+2)</b>	<b>90000</b>	<b>50000</b>

Total Project: € 90000

Total Requested from EDP: € 50000

Percentage Requested from EDP: 55 %

PREVIOUS

SAVE & CONTINUE EDITING

NEXT

Please fill out the following table that correlates the project's key expected outputs and outcomes for the community and stakeholders. Consider environmental and social outcomes.

- Key outputs are defined as the main results of the actions, which should be detailed and quantified.

- Key outcomes are defined as the changes (in knowledge, attitudes, behaviors, and mentalities) that occur in a person and/or community due to the project's actions.

The Simplified Project Budget is divided into 1. Investment Expenses (related to materials and equipment) and 2. Development Expenses (related to services). Please refer to the Regulation to check all eligible and non-eligible costs.

The first row and first column are already populated. Fill in the remaining fields with the information.

In Total Cost (€), the total value of that budget line should be stated.

In Amount requested from EDP, the value corresponds to the amount to be co-funded by EDP.

The Project and Total requested from EDP are automatically populated as the table is filled.

An error message will appear when saving the form if the amount requested from EDP is over 150,000€ or below 50,000€.

Click "Next" to move to the next page of the Project Overview or "Previous" if you wish to see/edit the prior one.

--	---

### 4. Sustainability

4.1. Describe which measures will be taken to ensure the project viability from its inception to completion, considering economic, social, environmental, and technical aspects.

In your answer, please address the following dimensions, as applicable to your project:

- **Technical** – for example, operation and maintenance (O&M), system reliability, and local technical capacity.
- **Financial** – for example, future operating costs, revenues, or cost-recovery mechanisms, and resources for repairs or replacements.
- **Social** – for example, community involvement, local ownership, and long-term benefits for beneficiaries.
- **Environmental** – for example, reduction of fossil fuel consumption, reduced pressure on natural resources (e.g. deforestation), and reduced CO<sub>2</sub> emissions.

The school will assume the ownership of the program.  
 The technical sustainability will be ensured via the training of the staff on O&M, and the support of the provider in all corrective actions needed.  
 A Maintenance Fund will be created and managed by the School, fees will be collected from the community to charge mobiles and access to the internet. The community will benefit from the project, as they will have access to better education, which will also increase their future employability.

### D. Applicant Statement

This section refers to the Project Promoter declaration of conformity to EDP policies and Fund Regulations.

<p> Applicant Statement <span>...</span></p> <p><b>Applicant Statement</b> <span>✓ Draft saved</span></p> <p>Applicant's Declaration Form of alignment with EDP's <a href="#">Code of Ethics</a> and <a href="#">Integrity Policy</a></p> <p><b><u>Applicant Statement</u></b></p> <p><b>Name of the Applicant Entity</b></p> <p><input type="text" value="Trial &amp; Co"/></p> <p><b>Address</b></p> <p>Address Line 1 <input type="text" value="Trial Street 23"/></p> <p>Address Line 2 <input type="text" value="2nd floor"/></p> <p>City <input type="text" value="Trial City"/></p> <p>State/Province <input type="text"/></p> <p>ZIP/Postal Code <input type="text" value="9000"/></p> <p>Country <input type="text" value="Portugal"/></p>	<p>Both documents are available on the link if clicked.</p> <p>The information will be automatically populated from the Project Promoter Info data.</p>
---	---

We know and accept EDP's Ethics Code and Integrity Policy

We know EDP's sustainability goals and commitments and our proposal is aligned with them

We read and understood the A2E Fund Regulations and authorize the collection and treatment of personal data

We confirm that we do not have outstanding tax debts to the State or contributions in arrears with the Social Security System

We confirm that we have not been convicted in the past two years on ethical, human rights or labor issues

We confirm that our reputation is not under scrutiny

We confirm that we do not have conflicts of interest with the EDP Group

We confirm that we do not pursue any party, religious, sectarian or discriminatory practices

Our financial status is appropriate for the requirements of the Proposal

Our organization is in a position to correctly implement the Proposal

If our Proposal is approved:

We commit to measuring and providing proof of implementation of the Proposal in accordance with the EDP methodology

We understand that EDP's contributions depend on the fulfilment of the agreed Goals

SAVE & CONTINUE EDITING

MARK AS COMPLETE

Read all questions carefully and select "Yes" or "No" from the drop-down boxes.

Select "Mark as Complete" if finished.

## 4. Submitting the Summary Application

After completing the Application Form, you may “Review” it before clicking “Submit”. You may also Preview or Download the document by clicking the 3 dots in the right corner.

After clicking on “Submit” a validation message will appear. Then, you will be redirected to a confirmation page and an email will be sent to the email used in the registration.

The status of the Application will be changed to “Under Review”. When the analysis review is finished, an email will be sent.

## 5. Full Application

You can access the Full Application if the Summary Application is selected for the next phase. Please note that most summary application text fields will be automatically carried over to the new form, though some formatting may change. Fields such as drop-down lists, tables, and attachments must be completed or uploaded.

The *Application Portal* displays the different sections of the application and their status.

Deadline: 7 Jul 2026 20:00 (WEST)

📄 **Disclaimer** ⋮

### Disclaimer

“The personal data hereby collected are intended to allow contact and intermediation within the scope of the Project

**A. Responsible for processing personal data:** EDP S.A. (EDP), with legal office at Avenida 24 de Julho, nº 12, 1249-300 Lisboa; e-mail address: a2e@edp.com.

**B. Purpose of the processing and legal basis:** The collection of the identification and contact data and their subsequent processing is intended for the processing and management of the project for the purpose of approval and subsequent granting of the financial contribution as well as for compliance with any other legal requirements; personal data will be processed by EDP as they are necessary for the participation in the Program which Regulation and rules were accepted by the interlocutor indicated by Project Promoter and who intends to apply for the Project.

**C. Recipients:** The processing of personal data may be carried out by a suitable service provider contracted by EDP. The said service provider will exclusively treat the data for the purposes established by EDP and in compliance with the instructions issued by EDP, strictly complying with the legal rules on personal data protection, information security and other applicable standards.

**D. International data transfers:** EDP will only transfer personal data to countries where European Union (EU) Commission has decided to present an adequate level of personal data protection or where EDP has implemented measures to ensure the security, integrity and confidentiality of personal data under the legislation on personal data protection using contractual mechanisms approved by the European Commission or other Regulatory Entities, such as EU Model Contract Clauses.

**E. Conservation period:** The personal data collected will be kept for the period of the duration of the project, without prejudice to the responsibility to keep them beyond the period for the fulfillment of legal obligations or for the purpose of historical archiving of the company, through the application, in the latter case, of appropriate technical and organizational measures.

**F. Exercise of Rights:** The data owners may, at any time and for free, exercise their rights of access, rectification, opposition or deletion of data, limitation and portability of their data and for this purpose to submit their request, in writing, through the following contacts: E-mail: a2e@edp.com; Address: Avenida 24 de Julho, nr. 12, 1249-300 Lisboa.

In the scope of this Project, if you consider that EDP has violated or may have violated your rights under the applicable data protection legislation, you may file a complaint with the National Data Protection Commission. For any question related to the information, the data holder may also contact EDP’s Data Protection Officer (DPO), whose contact information is: • E-mail address: dpo.pt@edp.com”

### 2. Project Description

#### 2.1. Explanation of the problem identified

Describe the community (ies) need(s) or problem(s) that is being addressed with the project implementation. If possible, quantify and describe the community (ies).

Malawi is one of the poorest countries in the world, ranking around 171–172 out of 189 countries in the United Nations Human Development Index (2018). Approximately half of the population lives below the national poverty line. Access to secondary education remains limited, with only about one-third of young people enrolling in secondary school. This situation particularly affects adolescent girls, who face multiple challenges related to adolescence as well as social expectations regarding their role in the community. Limited access to education creates significant barriers to acquiring skills and accessing future employment opportunities. Trial Secondary School currently lacks electricity, which restricts the conditions needed to provide vocational training such as IT and other activities that could support students' skills development and contribute to community growth. The school serves approximately 600 students and employs 30 staff members.

Characters entered: 962

Min: Max: 1000

Describe the need or problem that is being addressed with the project implementation.

## 2.2. Description of the project

Explanation of project goals, objectively stating the Solution(s) for the identified problem(s), including operational and/or business model, if applicable.

The "Solar for Youth Education" project aims to build the capacity of a new generation of leaders in Malawi. The project will allow for the complete "clean and reliable energy" provision of the Trial Secondary School by installing a solar PV + batteries system to serve the whole infrastructure. The project will also include building an IT workshop equipped with 20 computers to serve students' training needs and the community. The community's needs will be assessed through a market research study. The Solar System will also allow the charging of mobile phones through a fee that will be used for a Maintenance fund. The school staff will be trained in the operation and maintenance of the system. With the project, we will be able to attract more students to enroll in the school and reduce the dropout rates.

Characters entered: 818  
Min: Max: 4000

## 2.3. Technical Solution

### A. Energy Source

- Solar
- Hydro
- Wind
- Biomass
- Hybrid, please specify
- Other, please specify

### B. Type of Solution(s)

- Systems for Public and Private Infrastructure
- Solar Home Systems (SHS)
- Mini-Grid (MG)
- Mesh-Grid (peer-to-peer SHS)
- Cold Storage
- Water Pumping
- Desalination
- E-mobility
- Batteries renting/Charging Stations
- Cookstoves
- Other, please specify

### C. Total Power Installed (kW)

### D. Storage

### Battery Capacity (kWh)

Objectively state the project goal(s), the solution(s) for the identified problem(s), including operating and/or business model, if applicable.

Select the main energy source to be used in the project.

Select all technologies to be used in the scope of the project.

If "Yes" is selected, the "Battery Capacity" field will automatically appear.

## E. Description of the technical solution

Describe the technology proposed for the project, including key specifications and components. Explain how the system was sized and why it is suitable for the identified problem. Briefly describe how the system will be operated and maintained. Keep it practical and focused on what will be deployed.

### Example

Installation of a 30 kW solar photovoltaic system with 120 kWh battery storage to provide reliable off-grid electricity for the target facility. The system includes PV modules, inverters, charge controllers, battery storage, and basic monitoring equipment. System sizing was based on the facility's current energy demand, critical loads, and expected future use, ensuring continuity of service during grid outages or low-generation periods.

The system will be operated by trained local staff, with routine maintenance and basic troubleshooting covered through the project design to ensure long-term functionality.

Installation of a 30 kW solar photovoltaic (PV) system with 120 kWh battery storage to provide reliable electricity supply for the target facility in an off-grid context. The system will include PV modules, inverters, charge controllers, battery storage, and a basic monitoring system to support system performance tracking. System sizing has been designed based on the facility's current energy demand, identified critical loads, and anticipated future energy needs, ensuring a stable and continuous electricity supply, including during periods of low solar generation. The system will enable the use of lighting, digital equipment, and vocational training activities such as IT training, which are currently constrained by the lack of electricity. Operation of the system will be managed by trained local staff, and the project includes provisions for routine maintenance and basic troubleshooting to support long-term functionality and sustainability.

### B. Age range of beneficiaries

- Children (0 to 12 years old)
- Young people (12 to 17 years old)
- Adults (18 to 64 years old)
- Elderly (+65 years old)

### 3.2. Gender

The A2E CSR Fund aims to ensure gender equality (SDG 5). Considering the purpose of processing personal data, this question is optional.

Both ▾

Explain whether gender issues are essential for the construction of the project.

We aim to ensure that both boys and girls have equal access to the project's benefits. Considering gender issues in school energy projects is essential for promoting equity, increasing STEM representation, and improving education. Girls are often underrepresented in STEM fields. With this project, the school can actively work to increase representation and encourage more girls to pursue careers in STEM. Additionally, implementing energy-efficient technology will lead to cost savings, allowing more resources to be allocated to education.

Characters entered: 542

Min: Max: 700

### 3.3. Community engagement plans

- The beneficiary community needs to be identified.
- The beneficiary community has already been identified.
- The beneficiary community has already been identified and received our support through other projects.

### 3.4. Number of Beneficiaries

	Number	Type of population
Direct Beneficiaries	630	students and school sta
Indirect Beneficiaries	1000	Youth and local commu

Characters entered: 25

Min: Max:

Justify the values included in the number of beneficiaries. Explain how you calculated indirect beneficiaries.

600 students attend the Trial Secondary School, 30 teachers and staff. Around 1000 youth in the region that are not enrolled in Trial School and wider local community that may access the services at the school.

## Partnerships

✓ Draft saved

### 4. Partnerships

#### 4.1. Identify specific partnerships for project implementation and/or financing and describe their role

These refer to collaborations with external stakeholders who contribute to specific aspects of the project. These partners might provide technical expertise, funding, support services, institutional linkages, and may have a more flexible or temporary role in the project. If you do not have partners, write N.A. (not applicable) in the first row and provide the information in the box following the table.

Please complete the table below by listing only the partners who play a meaningful role in the project's implementation. For each partner, indicate:

- Name of the Partner – the organisation's official name.
- Role in the Project – briefly describe what they will do in the scope of the project.
- Relevant Experience – summarize experience in similar projects, technologies, or target communities.
- Website – include a link if available.
- Memorandum of Understanding (MoU) or Contract – confirm whether the partnership is formalized for the project. These partners can be co-applicants or consortium members. They share responsibilities in project implementation, decision-making, and resource allocation. Their involvement is typically long-term and strategic.

If additional partners are involved but not essential, include only the key ones.

	Name of the Partner	Role in the project	Relevant experience	Website	MoU or Contract?
Partner 1	A2E partner	Allow our interest	A2E Partner is the	www.edu.com	No
Partner 2	Trial Second	Engage all stakeholders	n.a. - they are the	n.a.	Yes
Partner 3	A2E Solar Reference	Provide the	Establish ed	www.solari.co	Yes
Partner 4					---
Partner 5					---
Partner 6					---

If your project does not require partners, please provide a brief explanation on why below

n.a

Identify specific partnerships for project financing and/or implementation: Name of the Organization, its role/purpose of the partnership, and, if applicable, relevant experience, website. Also, confirm if this relationship will be formalized.

4.2. Partnership Agreements (if applicable)

## F. Activities

This section refers to the information about the activities, expected outputs, outcomes, and timeline.

Activities
...

### 5. Expected Activities and Timeline

✔ Draft saved

#### 5.1. Key Activities, Outputs, Outcomes and Timeline

Please fill out the following table that correlates the project's key activities with the expected outcomes for the community and stakeholders. Consider environmental and social outcomes.

- Key activities are defined as the main actions to be performed to allow for the fulfillment of the project's objectives.
- Key outputs are defined as the main results of the actions, which should be detailed and quantified. (Ex. number of trainings, number of awareness-raising actions, number of stakeholders involved, number of households with access to energy, etc.)
- Key outcomes are defined as the changes (in knowledge, attitudes, behaviors, and mentalities) that occur in a person and/ or community due to the actions of the project (Ex. Increased entrepreneurial capacity; Increased responsiveness of services; Increased desire to attend school, etc.)
- Timeframe must be between October 2026 and December 2027

	Key Activities	Key Outputs	Key Outcomes	Timeline
Activity 1	Equipment installation: solarpanne	Equipment installed endure the	Trial Secondary School as	October 2026 - February 2027
Activity 2	Commissioning	90% of expectable (40h/week average)	Increase access to better education	March 2027
Activity 3	Training staff to care for	80% of Operation Staff are trained	Increase in knowledge on	October 2026 - March 2027
Activity 4	Design IT workshops	IT workshop built for 600	Increase access to internet for students	March 2027 - June 2027

Fill out the following table that correlates the project's key activities with the expected outcomes for the community and stakeholders. Consider environmental and social outcomes.

- Key activities are defined as the main actions to be performed to allow for the fulfillment of the project's objectives.
- Key outputs are defined as the main results of the actions, which should be detailed and quantified.
- Key outcomes are defined as the changes (in knowledge, attitudes, behaviors, and mentalities) that occur in a person and/ or community due to the project's actions.
- The timeline of the activities must be between October 2026 and December 2027.

You may fill up to 10 activities.

Activity 5	Create Maintenance Fund	Maintenance Fund created	Upkeep of the systems for the next decade	March 2027 - August 2027

### 5.2. How will the project be monitored and evaluated?

Briefly describe the procedure(s) to monitor and measure the changes that result from the activities. Define the main KPIs established for the project.

A Monitoring and Evaluation plan will be designed to monitor goals and results in indicators specific to the project. Information will be collected at baseline and endline stages. This plan will also consider measuring impact, such as the IT skills progress of different groups of beneficiaries. Regular reports will be produced.

#### 6.3.2 Team CVs

Optional but recommended for the team leader

### 6.4. Experience and Accountability of the Project Promoter (organization)

#### 6.4.1. Experience in similar projects, or solutions and/or target communities

A2E Trial & Co has over 10 years of experience and over 20 similar projects implemented, 5 of which in Malawi. The organization has a team of 10, 3 based in Malawi (1 expat, 2 nationals). We have a strong organizational capacity, ensured by our operations staff's strong experience in complying with different donors' requirements. A2E Trial & Co is integrated in the communities it serves and has strong institutional partnerships at both regional and central levels, namely with the ministries of Education and Energy

#### 6.4.2. Describe the capacity of the Project Promoter (financial and technical) to implement the project

Besides our sound experience in similar projects our partner A2E Solar Reference, has considerable experience in the setup of solar systems; they have the necessary connections and knowledge of the market so to ensure a secure and efficient structure. They can also provide training to staff and equipment maintenance and repair if necessary. A procurement process will be put in place for all project components and the guidelines will be made available. The co-funding of the project it will be through our own funds, project partners and donors.

H. Budget

This section refers to detailed budget for project implementation.

Budget ...

### Budget

Note: A grant in the range of €50.000,00 – €150.000,00 can be requested from EDP. As stated, applicants are required to provide, as a minimum, co-financing of 25% (non-profit entities) or 50% (for profit entities) of the global project value.

#### Detailed Project Budget

1. Investment Expenses (Materials)

Budget Items	Item Description	Total Cost (€)	Amount requested from EDP (€)	Value not covered by EDP (€)	Funding entity of the amount not covered by EDP
Works (Construction, rehabilitation and improvements of facilities)	Equipment installations	3000	1000	2000	Project Developer
Generation, Distribution and Electric Equipment	Solar panels	50000	32000	18000	Project Developer
Specific equipment (IT, telecommunications and/or specific equipment necessary for the development of the activity)	20 computers	10000	8000	2000	A2E Partner
Other equipment (detail by equipment type/designation)	N/A				
Sub Total 1		63000	41000	22000	

The Detailed Project Budget is divided into:

- Investment Expenses (related to materials, equipment) and
- Development Expenses (related to services).

Please refer to the Regulation to check all eligible and non-eligible costs.

The first row and first column are already populated. Fill in the remaining fields with the information.

In Item Description, describe which equipment and/or activities are to be considered in the respective budget item

In Total Cost (€), the total value of that budget line should be stated. The value must be equal to the sum of the following two fields (Amount requested from EDP and Value not covered by EDP)

In Funding Entity, please identify who will be co-funding the budget line besides EDP.

The Sub Total 1 row is automatically populated as the table is filled. Ensure that the sum is accurate

2. Development Expenses (Services)

\*Not eligible for co-funding by EDP

Budget Items	Item Description	Total Cost (€)	Amount requested from EDP (€)	Value not covered by EDP (€)	Funding entity of the amount not covered by EDP
Human Resources (project personnel linked to the project promoter)	50% Effort Project	10000	3000	7000	Project Promoter
Travel, accommodation and representation expenses	1 international travel	5000	0	5000	Project Promoter
External Services (Service acquisition, including experts, consultants and other essential services to the project)	N/A				
Training expenses and teaching materials	IT Workshops and IT	5000	4000	1000	Project Promoter
Promotion of the project (community engagement activities, communication, dissemination)	Inauguration of the IT	2500	1500	1000	Project Promoter
Monitoring and Evaluation	M&E Activities	1000	500	500	A2E Partner
*Office Costs (rent, current consumables, fuel and communications)	10% of Office Costs	1000	0	1000	Project Promoter
Other Expenses (Identify and detail by type of expense in the description)	Seed Money for Maintenance	2500	0	2500	International
<b>Sub Total 2</b>		27000	9000	18000	

The first row and first column are already populated. Fill in the remaining fields with the information.

In Item Description, describe which services and/or activities are to be considered in the respective budget item.

In Total Cost (€), the total value of that budget line should be stated. The value must be equal to the sum of the following two fields (Amount requested from EDP and Value not covered by EDP).

In Funding Entity, please identify who will co-fund the budget line besides EDP.

Despite being accepted as project costs, the budget line highlighted in orange, Office Costs, are not eligible for co-funding from EDP. The value of those costs should be 0 in Amount requested from EDP.

The Sub Total 2 row is automatically populated as the table is filled. Ensure that the sum is accurate.

<p>Total (1 + 2): €90000</p> <p>Total Requested from EDP: €50000</p> <p>Percentage Requested from EDP: 55%</p> <p><i>The Total Requested and the Percentage Requested from EDP are automatically calculated, however the page must be saved first to show the numbers</i></p> <div style="display: flex; justify-content: center; gap: 20px;"> <span>SAVE &amp; CONTINUE EDITING</span> <span>MARK AS COMPLETE</span> </div>	<p>The Total (1+ 2) is automatically populated as the table is filled. ### I. Project Sustainability

This section refers to the future viability of the project.

<div style="border: 1px solid #ccc; padding: 10px;"> <div style="display: flex; justify-content: space-between; align-items: center;"> <span> Project Sustainability</span> <span>...</span> </div> <h2 style="margin-top: 10px;">Project Sustainability</h2> <h3 style="margin-top: 10px;">7. Project Sustainability</h3> <p style="margin-top: 10px;">7.1. Describe which measures will be taken to ensure the project's viability from its inception to completion, considering economic, social, environmental, and technical aspects.</p> <p style="font-size: small; margin-top: 10px;">In your answer, please address the following dimensions, as applicable to your project:</p> <ul style="list-style-type: none"> <li>• <a href="#">Technical</a> – for example, operation and maintenance (O&amp;M), system reliability, and local technical capacity.</li> <li>• <a href="#">Financial</a> – for example, future operating costs, revenues, or cost-recovery mechanisms, and resources for repairs or replacements.</li> <li>• <a href="#">Social</a> – for example, community involvement, local ownership, and long-term benefits for beneficiaries.</li> <li>• <a href="#">Environmental</a> – for example, reduction of fossil fuel consumption, reduced pressure on natural resources (e.g. deforestation), and reduced CO<sub>2</sub> emissions.</li> </ul> <div style="border: 1px solid #ccc; padding: 5px; margin-top: 10px; min-height: 100px;"> <p>The school will assume the ownership of the program. The technical sustainability will be ensured via the training of the staff on O&amp;M, and the support of the provider in all corrective actions needed. A Maintenance Fund will be created and managed by the School, fees will be collected from the community to charge mobiles and access to the internet. Fees will be defined in collaboration with the school and community. The wider community will benefit from the project, as they will have access to better education, which will also increase their future employability.</p> </div> </div>	<p>Describe how the viability of the Project is ensured for its continuity over the long term, addressing the technical, economic, social, and environmental aspects of the project.</p> <p>This field will automatically be populated with information from the summary application. It may be changed.</p>
---	--

7.2. To which Sustainable Development Goal(s) does the project contribute?

- SDG 1 - No poverty
- SDG 2 - Zero Hunger
- SDG 3 - Good Health and Well-Being
- SDG 4 - Quality Education
- SDG 5 - Gender Equality
- SDG 6 - Clean Water and Sanitation
- SDG 7 - Affordable and Clean Energy
- SDG 8 - Decent Work and Economic Growth
- SDG 9 - Industry, Innovation and Infrastructure
- SDG 10 - Reduced Inequalities
- SDG 11 - Sustainable Cities and Communities
- SDG 12 - Responsible Consumption and Production
- SDG 13 - Climate Action
- SDG 14 - Life Below Water
- SDG 15 - Life on Land
- SDG 16 - Peace, Justice and Strong Institutions
- SDG 17 - Partnership for the Goals

Justify the selection above

The "Solar for Youth Education" project can contribute to SDGs 4 and 7 by providing the school with access to clean and renewable energy and improving the learning environment. By installing solar panels, the school generates its own electricity, saving costs related to electricity from the grid and diesel, reducing its reliance on fossil fuels, and helping to mitigate climate change. With access to reliable energy, the school can provide a better learning environment with improved lighting and access to IT equipment, which can enhance the student's learning experience. In addition, the project can provide opportunities for students to learn about renewable energy and its importance for sustainable development.

Characters entered: 716

Min: Max: 750

7.3. Does the project include an environmental impact assessment?

No

8. Project expansion/replication post EDP's Support

8.1. Explain the potential for project expansion and/or replication after EDP's support, including any mechanisms foreseen to attract additional partners or resources.

The IT program will be supported by the Ministry of Education. The maintenance Fund will ensure all future costs. The project will be showcased to attract more funds to develop new programs in the school and to replicate in other schools in Malawi and other countries.

Characters entered: 268

Min: Max: 1000

9. Additional Information (optional)

9.1. If applicable, add relevant information about the project

Attached to the application form you will find: A2E Trial & Co Projects Booklet. You may also see the video of a similar project in the website www.....

Characters entered: 156

Min: Max: 1000

Select up to 5 (five) SDGs the project makes a direct and relevant contribution and explain how and why in the box below.

Describe the potential for replication or expansion of the proposed project. If other mechanisms are being considered, please describe them.

Add any relevant information related to the project or the organization if necessary.

## 9.2. Additional supporting documents

eg. Assessments, Bill of Quantities, Technical Specifications, Certificate of Accreditation (in the case of entities declared of public utility), Documents accrediting experience in collaborating with other entities or justifying membership in networks and platforms, etc
