

Alabama Solar Project  
Genesee County, New York  
**UPDATED 60-DAY NOTICE OF INTENT TO FILE AN APPLICATION**

Alabama Solar Park LLC is proposing to construct the Alabama Solar Project, a major solar electric generating facility, under Article VIII of the New York State Public Service Law (Article VIII). This notice announces that the Prospective Applicant has updated the anticipated date of the filing of the Application to on or about June 26, 2026, Alabama Solar intends to file an Application with the Office of Renewable Energy Siting and Electric Transmission (“ORES” or the “Office”), pursuant to Article VIII seeking a Siting Permit from the Office authorizing the construction and operation of the Alabama Solar Park. The Article VIII process has been implemented by rules enacted by the Office and establishes a review process with uniform standards and conditions for all renewable energy projects. The uniform standards and conditions are available at 16 NYCRR 1100-6 and <https://dps.ny.gov/ores>.

The Alabama Solar Project is a utility scale solar photovoltaic energy generation facility proposed to be located in the Towns of Alabama, Batavia and Oakfield, with a temporary laydown yard in the Town of Pembroke, Genesee County, New York (the “Project”).

The Facility is a zero-emission solar energy facility that will assist the State in meeting the goals of the Climate Leadership and Protection Act and State Energy Plan, which includes obtaining 70% of energy generation from renewable sources by 2030 and significantly reducing greenhouse gas emissions. Other positive impacts of the Facility include diversification of energy supplies, new employment opportunities (both temporary construction and full-time employment), increased revenues to the Towns of Alabama, Batavia, and Oakfield, Genesee County, and School Districts, payments to participating landowners, support of the local hospitality industry, and purchase of local supplies and goods. In addition, Alabama Solar has attempted to avoid and minimize impacts associated with the Facility, for example, by limiting impacts to cultural resources and wetlands to the maximum extent practicable. Alabama Solar will submit an Application that includes extensive studies evaluating the potential impacts associated with the Facility and identified methods which have been agreed to be implemented to avoid, minimize and mitigate potential impacts. This notice is being provided in accordance with 16 NYCRR 1100-1.3(f) and is being published at least sixty (60) days prior to the filing of the Application.

For more information about the Project, please visit the Project website at <https://www.edp.com/en/north-america/north-america/projects/alabama-solar-park>, on the ORES website (<https://dps.ny.gov/ores-permit-applications> under ORES Matter No. 23-03016) or contact Alabama Solar at:

Alabama Solar Project  
Attn: Rachel Smith  
1501 McKinney Street, Suite 1300  
Houston, TX 77010  
Phone: 716.349.1629  
Email: [rachel.smith@edp.com](mailto:rachel.smith@edp.com)

Hard copies of the Application, when filed, will be available for review at the following local document repositories:

Corfu Public Library  
7 Maple Avenue  
Corfu, NY 14036

Haxton Memorial Library  
3 North Pearl St  
Oakfield, NY 14125

Richmond Memorial Library  
19 Ross St  
Batavia, NY 14020

Pursuant to 16 NYCRR 1100-5, Alabama Solar will submit with the Application \$1,000 dollars for each MW of capacity for local agencies and potential intervenors, which, for this project totals \$133,000. Any local agency or potential community intervenor can submit a request to the Office for funding within thirty (30) days of the date of the application filing. Seventy-five percent of the local agency account funds shall be reserved for local agencies. Intervenor requests can be made to: the Office of Renewable Energy Siting and Electric Transmission, Attn: Request for Local Agency Account Funding, Three Empire State Plaza, Albany, NY 12223-1350.
