

Alabama Solar Project
Genesee County, New York

3-DAY NOTICE OF INTENT TO FILE AN APPLICATION

Alabama Solar Park LLC (the “Prospective Applicant”) is proposing to construct the Alabama Solar Project, a major electric generating facility, under Article VIII of the New York State Public Service Law (“Article VIII”). This notice announces that on or after July 27, 2026, the Prospective Applicant will file an Application pursuant to Article VIII and its implementing regulations (the “Article VIII Process”) under Permit Application Number ORES DMM Matter No. 23-03016 seeking a siting permit authorizing the construction and operation of the Alabama Solar Park. The Article VIII Process has been implemented by rules enacted by the Office of Renewable Energy Siting and Electric Transmission (“ORES”) and establishes a review process with uniform standards and conditions for all renewable energy projects. The uniform standards and conditions are available at Chapter XI, Title 16 of NYCRR § 1101-3 and <https://dps.ny.gov/ores-regulatory-documents>. The Prospective Applicant filed its Updated 60-day Notice of Intent to File an Application on April 27, 2026, pursuant to 16 NYCRR § 1100-1.3(f). By letter dated June 24, 2026, the Prospective Applicant advised of its intent to file the Application on or after July 27, 2026 due to ongoing cultural resources consultations. This notice is being provided in accordance with 16 NYCRR § 1100-1.6(c) and is being published at least three (3) days prior to the filing of the Application.

The Alabama Solar Project is a up to 130-megawatt (“MW”) utility scale solar photovoltaic energy generation facility proposed to be located in the Towns of Alabama, Batavia, and Oakfield, Genesee County, New York (the “Facility”).

The Facility is a zero-emission solar energy facility that will assist the State in meeting the goals of the Climate Leadership and Protection Act and State Energy Plan, which includes obtaining 70% of energy generation from renewable sources by 2030 and significantly reducing greenhouse gas emissions. Other positive impacts of the Facility include diversification of energy supplies, new employment opportunities (both temporary construction and full-time employment), increased revenues to the Towns of Alabama, Batavia, and Oakfield, Genesee County, and School Districts, payments to participating landowners, support of the local hospitality industry, and purchase of local supplies and goods. In addition, the Prospective Applicant has attempted to avoid and minimize impacts associated with the Facility, for example, by limiting impacts to cultural resources and wetlands to the maximum extent practicable. The Prospective Applicant will submit an Application that includes extensive studies evaluating the potential impacts associated with the Facility and identified methods which have been agreed to be implemented to avoid, minimize, and mitigate potential impacts.

For more information about the Facility, please visit the Facility website at <https://www.edp.com/en/north-america/north-america/projects/alabama-solar-park>, on the ORES website (<https://dps.ny.gov/ores-permit-applications> under ORES Matter No. 23-03016) or contact the Prospective Applicant at:

Alabama Solar Project
Attn: Rachel Smith
1501 McKinney Street, Suite 1300
Houston, TX 77010
Phone: 716.349.1629
Email: rachel.smith@edp.com

Hard copies of the Application, when filed, will be available for review at the following local document repositories:

Corfu Public Library
7 Maple Avenue
Corfu, NY 14036

Haxton Memorial Library
3 North Pearl St
Oakfield, NY 14125

Richmond Memorial Library
19 Ross St
Batavia, NY 14020

Pursuant to 16 NYCRR § 1100-1.4 and § 1100-5, the Prospective Applicant will submit with the Application \$1,000 dollars for each MW of capacity, which, for this project totals \$130,000, to be made available to local agencies and potential community intervenors for the purpose of contributing to a complete record leading to an informed permit decision as to the appropriateness of the site and the facility, and particularly for local agencies, shall include the use of funds to determine whether a proposed facility is designed to be sited, constructed, and operated in compliance with applicable local laws and regulations. Any local agency or potential community intervenor can submit a request to ORES for funding within thirty (30) days of the date of the Application filing. Seventy-five percent of the local agency account funds shall be reserved for local agencies. Intervenor requests can be made to: the Office of Renewable Energy Siting and Electric Transmission, Attn: Request for Local Agency Account Funding, Three Empire State Plaza, Albany, NY 12223-1350.
