

Arbuckle Mountain Wind

Murray & Carter Counties, Oklahoma

- ⚡ Installed capacity: **100 MW**
- 🏠 Commercial operation: **2015**
- 🏠 Homes powered: **22,100 Oklahoma homes.**¹

Arbuckle Mountain Wind is located on Oklahoma ranchland among the Arbuckle Mountains in Murray and Carter Counties. The turbines are approximately 15 miles north of Ardmore on the rolling, windy landscape of south central Oklahoma.

Energy security

Power generated at this site **will strengthen Oklahoma's electric grid while contributing to broader U.S. energy security** by diversifying domestic power supply.

Wind energy and land use

Wind turbines have a minimal land footprint, leaving approximately **98% of leased land available** for continued farming, wildlife habitat, ranching, or recreation.²

Wind energy supports American manufacturing

The U.S. wind industry supports a robust domestic supply chain, with **more than 450 factories and over 130,000 American jobs** nationwide.³

Arbuckle Mountain's environmental impact

This project will conserve **over 177.8 million gallons** of water annually and reduce air pollution linked to smog and acid rain.⁴

How wind energy works

EDPR NA uses wind turbines to harness the natural resource of wind to generate mechanical energy. This energy is transformed into electricity via a generator and is sent to the electrical grid after being converted to the proper voltage.

As one of **the most cost-effective energy sources available** today, wind energy already provides at least **25% of electricity generation** in eight U.S. states.^{6,7}

Local experience with EDPR NA

“Money isn't everything, but it takes money to make the world go 'round. The community from construction time, the little grocery stores, the tire shops, mechanic shops, gravel truck guys...they all get a little job out of it. And that's just where the money begins. The schools get big money out of it. It's for more than just us landowners, it's for the whole community.”

Leo L., Landowner, Texas

About us

EDP Renewables North America LLC (EDPR NA), its affiliates, and its subsidiaries develop, construct, own, and operate wind farms and solar parks throughout North America. Headquartered in Houston, Texas, with 61 wind farms, 29 solar parks, four energy storage sites, and eight regional offices across North America, EDPR NA has developed more than 12,900 megawatts (MW) and operates more than 12,300 MW of onshore utility-scale renewable energy projects. With more than 1,000 employees, EDPR NA's highly qualified team has a proven capacity to execute projects across the continent.
