EDP informs about contract secured for a 250 MW solar project in US

Lisbon, October 19th, 2026: EDP, S.A. ("EDP"), through its 71.4% owned subsidiary, EDP Renewables, S.A. ("EDPR") has secured a long-term Power Purchase Agreement with a global technology company for the clean energy generated by a 250 MWac (351 MWdc) solar project in Arkansas, US.

As presented in its 2026-28 Business Plan, EDP's Investment decisions are taken under an investment framework with clear risk-return criteria thresholds including IRR-WACC spread >250 bps. Since July 2025, EDP has contracted 1.7 GW of solar and BESS greenfield capacity in the US, with expected energy delivery for 2026-28.

This deal showcases EDP's strategic position in North America as a leading renewable energy developer. It highlights the robustness of EDPR's pipeline and its ability to build long term partnerships with major technology companies, supplying clean, reliable energy to support the expansion of digital infrastructure across the US.

This information is disclosed pursuant to the terms and for the purposes of the article 17 of Regulation (EU) No. 596/2014 of the European Parliament and of the Council.
