Q1. Put the five priority areas in order for Millmerran, 1 being most important.

PRIORITY AREA	WHAT IT COVERS	YOUR RANK
Community enhancement	Local economic opportunities and initiatives that make the town a good place to live	
Health and wellbeing	Social inclusion and support for people facing hardship	
Environment	Protection of the natural environment, including Landcare and land management activities	
Reconciliation	Access and opportunity for Traditional Owners, and shared understanding of local culture	
Education and skills	Developing the knowledge and skills local people need to work in local industries	

Q2. Name one thing this funding should pay for. Be as specific as you like.

Q3. How should the $100,000 a year be divided among the three funding models?

Type an amount in each box so the three add to $100,000.

FUNDING MODEL	WHAT IT INVOLVES	YOUR AMOUNT
One-off investment	A single larger contribution to a long-term community asset or project	$
Regular grants	One or two funding rounds a year that local groups apply to	$
Skills and training	Scholarships, traineeships, apprenticeships and training partnerships	$
TOTAL		$100,000

Q4. Should the funding be spent each year, or saved and spent on something larger?

Spending it yearly reaches more groups; saving it can pay for something substantial.

- ☐ Spend it every year, so more groups get a turn
- ☐ Save it for two or three years, then fund something larger
- ☐ A combination: a yearly amount and a pot that builds up
- ☐ No view

Q5. Who should assess applications and decide what gets funded?

The decision-making model has not been fixed. If you tick the first option, tell us which organisation.

- ☐ An existing local organisation
- ☐ A panel set up for this project
- ☐ EDP, against criteria the community sets
- ☐ Another model, or a combination

Which organisation, or which model, and why?

Q6. Anything else we should know?

Please let us know if there is anything additional you wish to share with us.
